Chapter 1

Fame, Cute Boys, Annoying Brothers, Protective Dads, and Un-Fair Mothers.

Fame, Cute Boys, Annoying brothers, Protective dads, and Un fair mothers. The everyday life of Elizabeth Marie Moore.

Thoughts have this - in front of them and at the end of them.

Chapter One...

"Eli get up" my mother said softly shaking me awake.

"No" I mumbled into my pillow. I felt weight on my bed and someone lean over.

"No choice" she said and I groaned and slowly got up.

I walked over to my closet to get dressed as my mother left the room. I found the nice morning Sunday service dress I was supposed to wear. I put it on and walked over to my mirror to get ready. I brushed my black burly hair and put on some light make up. Slipped on my white high heels and marched downstairs. I went down stairs and my dad was leaning against the door. My mother came in looking beautiful as she always did. I smiled when I noticed Noah wasn't up yet. My mom was beautiful and looked innocent and sweet but she had a huge temper. She huffed and marched ran upstairs. "NOAH GET YOU ASS UP. IF YOU AREN'T DOWNSTAIRS IN FIVE MINUTES IM SHOVING THAT DAMN PILLOW UP YOUR ASS" she roared and it took everything I had not to burst out laughing. I looked side ways at my father and he was also holding in his laughter. My mother came downstairs her face red. "Jenni pay up" my dad said holding his hand out. My mother glared and took a ten out of her pocket and gave it to him. "Next time he will get up" she said and my brother came down the stairs. He was wearing his usual jeans and t-shirt. He looked at me with a side way

grin and I nodded. We climbed into the car and were off. -Were still going tonight- Noah's voice entered my mind.

-Hell yeah- I thought back and he chuckled.

-Noah. This is the party of the year and we have to be there- I said and he nodded in agreement. I then whipped out my cellphone and did what I did best. Text. I was texting my friend when we got to the house of my aunt and uncle. We got out and Noah and I walked slowly behind are mother and father hating this family bonding shit.

"Macy" my mother squealed as Aunt Macy opened the door. They hugged and then she hugged dad. When she saw me she hugged me too.

"Elizabeth your so big" she said and I smiled.

"Thanks" I said and walked in.

"Noah you get any stronger" she asked shutting the door behind him.

"A little" he said and she laughed. Aunt Dawn and Uncle Dill were already here with there kids Mike

and Michelle. Mike was 10 and so annoying. Michelle was 3 and cute. Aunt Dawn and Uncle Dill got them from people who were knocked up by vampires and didn't want the babies. I saw that Carla and Carly were up. They were Aunt Macy and Uncle Damien's twin daughters. They were 12 years old only four years younger then Noah and I. "Eli" they cried when the saw me. They were like mini me sometimes. When ever I was at there house they stuck right beside me. It was cool sometimes but sometimes it was just plain annoying. "Hey Carla and Carly" I said back and the hugged me. "Well lets eat" Aunt Macy said. She made Blood Panacakes. I wasn't hungry and still upset about being woken up so I didn't eat. Noah being the fatty he is ate about 4. After they were all done eating everyone gathered around in the living room and we all talked.

"Eli have you repaid the credit card yet" Uncle Damien asked. Noah started laughing and shot daggers at him with my eyes. "No. I was unfairly yelled at for that. I mean come on we have so much money and the jeans were cute" I said back and my father sighed.

"Eli you have a limit though. What are you going to do when you get in real world. Your dad and I cant always pay for you" my mom said and I glared.

"Yeah. You guys are like bloody rich. You have money to spare for the rest of your life" I said. "When your eighteen we have no responsibility for you" my mother shot back.

"Daddy will pay for me because unlike you he cared about me" I said back and my mother looked at me angrily. "I love you Eli. You just need to have limits" she said back tiredly wanting this argument to end. "Whatever" I said and whipped out my cellphone. The rest of the time I didn't speak. I just leaned against the wall and texted. When everyone was done they said there goodbyes and we left. When we got home my mother stopped me and Noah before we went upstairs. "No parties tonight. Your still grounded because the credit card deal and you because of what you did in your bedroom" my mother said and my brother smirked. "Mom she wanted a piece of me" he said and left. My mom just rolled her eyes and I quickly left too. When I got

upstairs I took a shower to get ready. When I was done I slipped on my torn blue faded jeans. I slipped on some black flats. I put on hot red strapless tank top. It was short and showed my belly button that I got pierced a few days ago. I then straightened my hair and waited for Noah to give the signal for me to jump out the window. -Jump- his voice penetrated my thoughts. I jumped out the window and landed gracefully on my feet in a crouch. I straightened up and dusted myself off. I walked towards the car that was hidden in the dark on the side of the building. I slid into the passenger seat and we sped off. "Noah your looking good tonight" I said with a wink and he laughed. He had his hair spiked like usual. He had on a white tank top with a black leather jacket. He was wearing dark jeans and normal shoes. He looked like one of those boys from the eighty's but on my brother it looked so 2000.

"Your looking like a whore" he said and I laughed.

"Don't I always" I said and he just chuckled. As we sped along the road to the party I sighed. Noah and I always get invited. We ran the school everyone

wanted to be us. All because are father was king and are mother queen. We never mixed with humans much because we grew up around vampire royalty. My father enrolled us in an all vampire school. There was human mixed Vampire schools but my father wanted us in an all vampire school. The party we were going to was being thrown by a human. Are schools joined for an event once and he invited us when he saw us. As we got the house everyone around us stopped and stared as the black car slid into view. When we parked we got out. I walked around to Noah's side and we walked in slowly. People stared us and I didn't like it. "Noah there staring" I growled under my breath. My brother just shrugged and started winking at some human girls who squealed and started gossiping. It made him laugh and I pinched him. He just smirked and grabbed my arm and dragged me in. making me ignore the stupid stares. "Hello" a hyper scrawny little boy I recognized as the one who invited us said. "Im Greg the owner" he said and we nodded. Are eyes scanning the area and I using my powers to check out everyone. "Do you guys want refreshments

are anything" he asked getting nervous. Noah smiled crookedly down at the nervous boy.

"Greg boy would you happened to have any blood around" Noah asked and the boys heart beat I sensed sped up. "Y-Yeah" he stuttered out. My brother nodded and sniffed the air. He smiled. "Eli you coming" he asked and I nodded.

"Noah" I warned as he looked at a pretty human girl. Her eyes looking hungrily at him.

"I know Eli" he said and I laughed. We got the drinks and downed it at once.

"Eli" he said as I walked away.

"Be careful. If anyone threatens you call me" he said seriously.

"I know Noah the protector" I said with a smile. He smiled back and walked towards a group of girls. I looked and saw a nice looking brunette guy walking towards me. "Hey. Im Nick" he said and I smiled.

"Im Eli" I said not saying my real name.

"You wanna dance" he asked me and I nodded. I followed him to the dance floor and started dancing. I grinded my body close to his. It was fun and I liked just letting loose.

"You wanna go somewhere more private so we can talk" he whispered seductively in my ear. Images of me leaning over him penetrating his neck with my fangs. His blood dripping into my mouth came into my head. "Yes" I said while my mind screamed No. He took my hand gently and led me up a narrow stair case. He took me into an empty bedroom. I promised mom no more drinking out of guys but it was to great the temptation. His lips attacked mine as soon as the door was closed. Me being me took domination of what was going to happen. I turned him around so I pushed him on the bed and I was on top of him. I took my shirt of seductively showing my strapless white bra with its black lace. His eyes widened in approval and I leaned down and started kissing him again. I trailed my kisses down his jaw and on his neck. Then before he had time to sense danger or scream my fangs sank into the flesh of skin. He went still but the started to moan. My mind making this

experience seem sexual and not harmless. I got wrapped in his blood and didn't hear the door open. "ELI" I heard Noah's voice scream and I jumped up. I looked down and he sighed. "Eli, You promised" he said and I bit my lower lip and wiped the blood from my lip. "I'm sorry Noah" I said.

"Lick it and then fix his mind, Get dressed and ill be in the car" he ordered and I nodded. Punishing myself that I lost control so easily. I leaned over him and licked the wound. It healed immediately and his skin looked flawless. I then woke him up. I leaned over and looked him directly in his eyes. His eyes turned a coal black as I influenced his mind. "You never saw me tonight" I said and he nodded. I slipped on my shirt and ran out. When we got home all the lights were out. I sighed glad that mom and dad were sleeping. We tip toed to the front door and casually opened.

I cursed silently under my breath when we walked into there trap.

"How was the party" my mothers angry voice said.

-Were fucked- Noah's voice ranged in my head.

-Yup. Might as well pull out the disappearing trick- I said and he had to hold back his laughter. -Ill cover your eyes while you cover mine- he said and I actually burst out laughing. "Noah Jay Moore and Elizabeth Marie Moore explain right now" my mother said threw gritted teeth. I knew then that the normal groveling worked.

Noah was right we were fucked.

What do you guys think?

Do you like it?

Im actually really nervous to put this up.

Im afraid you wont like how i made Noah and Elizabeth?

So what do you think about them?

Mad i made them so bad?

Happy they arent perfect angels?

Also what do you think about the title?

Too long?

If you have any other ideas tell me and i might use it and i will give you credit for your idea if i use it also!

Chapter 2

Fame, Cute Boys, Annoying Brothers, Protective Dads, and Un-Fair Mothers. ~Chap. 2~

Chapter Two...

"Mom we were saving a kitten" Noah said and my dad gave him the shut up now look.

"Mom. We went to party" I said and my mother relaxed a little but not a lot.

"Didn't you guys here me? I said no partying tonight" she said and we shook her head yes. "Why would you go behind my back and do this. Right now im feeling that the usual grounding wont work" she said shaking her head. My father nodded in agreement.

"Up to your rooms now. Your father and I need to discuss what to do" she said and we nodded and darted upstairs. When I got to my room I sat on my bed. I laid down and fell asleep. It felt like I only slept a moment before I felt my brother shaking me awake.

"Eli get up. Mom and dad what us downstairs" he informed me and I got up. I changed into some usual sweats though and followed my brother downstairs and into the living room. We sat down across from are parents awaiting the usual punishment.

"We have decided to move" my dad said and are jaws dropped.

"Were moving back to my home town. I have two good friends there I haven't seen in awhile and you guys need to go somewhere more smaller" my mother said and I was up.

"NO" I screamed.

"I am not going" Noah said also jumping up.

"Are you guys eighteen" my mother asked.

"No. But we should have a choice because were not little kids" I screamed.

"Lower your voice. Pack your bags. Are flight leaves in two hours" my mother said.

"I hate you" I said and stomped out of the room.

"Me too" Noah said and followed behind me. We didn't talk as we went up the stairs. We went into are separate rooms and started packing. When I was done packing I put on some mini white shorts and a cute purple shirt that fell off my shoulders. I put on some cute purple high heels and then carried my bags downstairs. Noah was already downstairs and we left in silence. No one talked, no one made eye contact. When we got to the air port we all boarded daddy's plane and were off.

~~~PLANE RIDE YAY!!~~~

When we got off the plane I was blinded by light. My mom on the other hand was bouncing with excitement. I knew why when I saw a familiar looking short brunette.
~~~

"EVE" my mother screamed and ran towards the human. Her and the human squealed and hugged each other. I felt awkward but my mom was so happy. "Jenni I missed you" Eve squealed and I looked at my mother and for minute she seemed like your usual typical happy teenager. It surprised me at how care free she looked. ""Man your looking fine" Eve said and my mom laughed and struck a none motherly pose.

"I try my hardest baby" she said and they broke into a fit of giggles.

"Elizabeth Noah come here" my mother called a smile on her face. The eve girl jaw dropped when we walked forward. "There so big" she said and hugged us both.

"Im Eve" she said and I nodded lightly.

"Well lets go Jay hates staying home with the kids" she said and laughed and led us towards a mini van. A mini van? I repeated in my brain appalled.

I do not ride in mini vans then why am I getting in one I do not know.

-Mini vans?- Noah's voice in my mind.

-Imagine that- I said and he laughed. My mother looked at us a smile on her face.

"You guys really need to let us in on your conversations" my mother said and I smiled at her. "We need some privacy" I said and she smiled. We pulled up in front of a nice but small house. It wasn't very big house it looked like a normal modern family house. I got out and followed my family in the house. My brother walked silently beside me. My father had his arm protectively around my mothers waist as she gossiped like a school girl with Eve. We walked in and my mother squealed again and jumped onto a man with blonde hair. "JENNI BEAR" he screamed.

"JAY BEAR" my mother screamed and they laughed. Eve and my father were laughing too. I heard arguing upstairs and looked at Noah who nodded his head. Before anyone could stop us we were upstairs where the arguing was. We saw a boy who looked fifteen and a girl who looked to be fourteen. They were arguing about something we didn't understand. "GET OUT OF MY ROOM" the boy yelled again.

"No. What did you do with my diary" she asked her hands on her hips.

"I didn't touch your damn diary" The boy yelled. The boy had blonde hair and green eyes. The girl had the same blonde hair and identical green eyes. Noah smiled at me and I agreed. We darted before they could sense are present into the room. Noah ran into the closet while used my mind power and went in there too. We peeked in and were enjoying the show until the four adults entered the room. "Madison and Jaime say hello to are guests" Eve said and they stopped arguing.

"Hey" Jaime said.

"Hello" Madison said.

"Where are your kids" Jay asked confused.

"Elizabeth Noah out of the closet" my mom said and we climbed out.

There eyes widened and Noah smirked.

"Madison your diary is probably in your closet. I used to hide mine there and forget all the time" I said and her eye widened.

"Eli, Noah no more peeking into other peoples conversation" my mother said laughter in her voice. We nodded. "How did you guys get in there" Jaime asked and my brother grinned. I grinned one too but my grin was wider and I made my fangs pop out. The girl screamed while my mother shook her head trying to act like an adult. "I used my secret talent" I said.

"Noah you will be rooming with Jaime and Elizabeth you will be with Madison. Tomorrow you will be go to school with them" My mother said and we nodded. Madison took me to her room and I changed into my normal pajama's. I laid down on the floor and fell to sleep. Tomorrow was going to be the worst day of my life. I thought as my eyes closed and dreams were all I saw.

Jenni will be a lot more fun because now she has her two best friends and they always bring the child out in her.

She was so strict before because thats how Elizabeth saw her as a mean mom. So im sorry but Jenni will be more Jenni when the book moves on. So comment and vote please.

Pretty please with sexy vamps on top comment and vote!!!! :]]

Chapter 3

Fame, Cute Boys, Annoying Brothers, Protective Dads, and Un-Fair Mothers. ~Chap. 3~

Chapter Three...

"Eli your mom said to wake you up" a male voice said from the door way. I got up and saw Jaime's jaw drop. I looked down and saw I was wearing short shorts and a tank top that was tight fitting and made my black bra show. My hair was in curly sexy mess and it made me look smoking hot. "Take a picture it last longer" I said pushing threw him and running downstairs. Noah was still in his pajama's drinking. Madison was already gone and my mom and dad were no where to be seen. "Where's mom and dad" I asked getting my own glass and downing it in one gulp. "Over there" he said pointing to a door. I walked

towards slowly and head yelling going on. I slowly opened the door and my jaw dropped. Inside was Jay sitting on the ground with an controller my mom sitting beside him controller in her hand. Eve stood behind my mom and Jay and my dad was laughing in the corner. "Jay stop. Let my kill you" my mother whined pressing random buttons.

"Jenni if I let you kill me then I will loose" Jay said back.

"I know but you have killed me like 20 times" My mother whined again.

"Jenni be a man" Eve said and my mother shot her a glare.

"For your information I don't have a penis and don't want one. So I can not be a man" my mother said and Eve started laughing. I slowly backed out of the room and shut the door before they noticed me. "Are mother just said the word penis" I said horrified as I walked by Noah. He spit out his drink and got up and followed me. "She said penis" he asked and I nodded. "Oh. Wow. Mom never says that word she never even speaks of boy and girl parts" Noah said.

"Yeah. I know" I said and walked into the room to get ready while Noah went to get ready. I decided today that I would wear something hot. So I dug threw my clothes and found the perfect clothes. Leather black pants that were so tight I wouldn't dare bend down. I slipped on a nice hot red tank top that clung to my body and showed all my curves nicely. It also made my boobs seem huge. I straightened my bangs that went diagonally across my face. I then curled the rest in nice soft curls. I slipped on some hot red heels and walked out. "Someone is looking mighty fine today" my brother said and I laughed. I saw Jaime downstairs when we got down. "Are you guys...whoa" he said when he saw Noah and I. Noah was wearing dark jeans and hot red tank top that showed all his muscles in his arm. His hair was the usual spiky look. "Were ready" Noah said and we walked out the door with Jaime. "How are we getting there" I asked.

"Walking" he said and I raised an eye brow.

"Noah let the boy on your back. I am not going to walk" I ordered.

"Hell no" Noah said.

"Yes. I have heels" I said pointing to my feet.

"Get on my back" Noah mumbled and Jaime climbed on.

"Lets go" I said with a wicked grin and we were off. Then we were there a few people screamed at the sight of us. All the vampires in pure excitement because they recognized who were. The humans screamed in pure surprise and scared. "Bye Jaime" I said as Jaime walked off. "Noah shall we go to the office" I asked.

"Yeah lets go" he said and we walked towards the office. Noah had his arm around my shoulder as we walked. People parted out of are way as we walked. When we walked in the secretary told us to go straight into the principle office. So we walked in and sat down. "Hello im your principle Mr. Harris. I need your guy's name and parents name so I can write it down in your file" he said.

"Okay. My name is Elizabeth Marie Moore. My father is Alexander Thomas Moore. My mother is Jennifer Anne Livingston Moore" I said and when I said my mothers name he stopped writing and froze. "J-

Jennifer" he stuttered out. I gave my brother a nervous look and he had the same look on his face. "Are you having a heart attack Mr. H" Noah asked and the man jumped in mid air. "DON'T CALL ME MR. H ITS MR. HARRIS" he yelled and Noah and I jumped. "Uhhh...." Noah said. We were speechless. The secretary barged in. Mr. Harris was now walking back and forth really fast saying 'Its Mr. Harris' over and over again. The secretary walked over and was helping him calm down.

"See you later" I said as Noah and I got up and exited the room. The other secretary handed us are schedules and we left. This school was so boring. "I have biology" Noah said and I groaned. "I have Math" I said and Noah chuckled.

"Cheer up sis. Just get used to it" he said and hugged me.

"I cant Noah. We don't fit in here" I said and he nodded.

"We don't now sis. We have to try" he said and walked away. I started walking towards the class room. I hated all my classes and couldn't wait until

lunch. When the lunch bell rang I ran out of the class room. When I saw Noah in the lunch room I ran into his arms. He swung me around like we used to do when we were little. People stared at us like we were stupid. "Eli meet Dan and Heather" Noah introduced me too two people who looked oddly normal. "Hey" I said and Noah rolled his eyes.

"Hello Eli" Heather said and my wall went up.

"Only my family calls me Eli" I said quickly and she looked taken a back. Noah narrowed his eyes at me but I didn't care. I didn't like this girl. I also didn't like the way Noah looked at her. Even though he just met her he looked at her like he has known her forever. "Eli were sitting with them" Noah said and I nodded. I sat down and I immediately felt awkward. Noah chatted up with the people while I looked away. I looked at the people who sat down and I felt mean but I wished Noah felt miserable here like I did.

"What's your next class Elizabeth" Heather asked me. I looked at my schedule and gasped. "No she didn't" I said.

"What" Noah asked.

"Mom signed me up for chorus" I said and Noah new I hated singing in front of people.

"Eli you have a pretty voice though" Noah said trying to calm me down.

"I am going to..." I said my anger getting out of control.

"Just try it Eli" Noah said as the bell rang.

"Whatever" I said and walked away. I walked into the class room. Its walls were a plain white and in the middle of there was a circle of chairs. There was few students already sitting down. I walked and sat down in a chair and played with my curls. After the bell rang and everyone was seated and a weird looking lady walked in. In wasn't her appearance that was weird because her appearance was normal. She had normal brown hair and normal brown eyes. She had glasses on too. Her clothes were the weird thing. She was wearing a white dress. Music notes rimmed the bottom of the dress. There was also a big music note in the middle. Her brown hair was up in a messy bun and she had music notes in for earrings. She had music note bracelets on both wrists. Her nails were

white with music notes on them. She looked really weird. "Hello class" she said and sat down in a chair between too hyper girls. "Today I want to hear your voices but first I want to hear your names" she said with a little laugh.

"Ill start with me. My name is Mrs. Music" she said and laughed.

"I teach music and my name is Mrs. Music" she said still laughing. Other people laughed too while I sat there thinking kill me now god kill me NOW! People then started saying there names. I didn't care to remember them though. "Elizabeth" I said when it came to me. When everyone was done she started calling on people to sing. "Elizabeth dear why don't you go first" she asked and I looked at her surprised.

"No thank you" I said and she frowned.

"I want you to sing so sing" she said and I got up. I stood and started singing.

"Louder" she said and I glared at her.

"Im going to be singing the chorus part from a song called Dollhouse by Priscilla Renea" I said and cleared my throat.

"I tried to be a picture perfect girl

But you were in your own fantasy world

Trying to control me

Like some kind of Barbie

But that just ain't me" I sang loud enough for people to hear. Then my confidence came and I sang louder getting more into it.

"Cause I ain't a doll

This ain't a dollhouse

Your way too old to be

Putting me down like this

And playing around like this

I ain't a doll

This ain't a dollhouse

No i could never be stuck living life like this

Behind these four walls

Cause I ain't a doll" I finished singing. Out of breath. The teacher stared at me in pure wonderment. "You sing like an angel" she said jumping up and clapping loudly.

When she finally sat down she was smiling brightly. "Derrick your up. Show me your brilliant voice" she said and the most cutest boy I have ever seen got up. He had light brown hair that was lying messy on top of his head. He had bright green eyes. He was wearing a normal green shirt that brought out his eyes. He had on jeans too.

"Thank you Mrs. Music for the compliment. I don't know how I will beat that performance though" he said looking at me. I looked down.

"Im going to sing One Less Lonely Girl by Justin Bieber" he said and smiled a breath taking smile.

"How many I told ya's

Lets start over's

and shoulders

Have you cried on before" he started to sing and I looked up. His voice was wow. I couldn't place it. It was beautiful like him.

"How many promises

Be honest, girl

How many tears you let

hit the floor

How many bags you packed

Just to take 'em back

Tell me that

How many either or's

But no more

If you let me inside of your world

There'll be one less lonely girl" he finished and went and sat down.

"Two great performances" Mrs. Music said smiling. This year will be wonderful.

"Now..." she started but the door opened and another guy walked in. This guy was someone I never wanted to see. "Luke. Nice of you to join us again this year" Mrs. Music and Luke just shrugged. "Luke. We have some one new joining us this year. Meet Elizabeth" she said and he looked at me. His green eyes connected with mine and I froze. They looked the same. They looked hard and cold. I remember the softness they once held though. "Eli" he said and hearing him say my name broke me. I ran out of the room. I didn't go far though just outside the door. I slid against the wall the memories of what happened flooding my mind. "Elizabeth" I heard the beautiful, soft, caring voice of Derrick flooded my ears. "Over here" I said and then I saw him.

"Are you okay" he asked worried.

"Im fine" I said and he held out his hand to help me up. When I grabbed his hand I felt a shock run threw my body. I didn't know if he felt it or not but he didn't show it.

"Are you sure" he asked not letting go of my hand.

"I'm going to go home" I said and he nodded.

"Ill tell Mrs. Music" he said and I nodded.

"Bye" I said and was about to go until he grabbed my arm.

"This might sound out of place and all but I have to say it...You have beautiful eyes" he said and I blushed. No one has ever said anything so sweet to me.

"Thank you Derrick" I said and kissed him on the cheek.

I then walked away.

Smiling.

I found something great in this stupid town.

I cant like him though.

Luke taught me one lesson when I was young and that was that I had to guard my heart.

I couldn't let it get broken twice.

So Elizabeth has her own secrets.

And they involve a certain bad boy luke.

So comment and vote for Mr. H brake down...Jenni really did make him go crazy! Lol.

Chapter 4

Fame, Cute Boys, Annoying Brothers, Protective Dads, and Un-Fair Mothers. ~Chap. 4~

Chapter Four...

When I walked in the door of the house my mother was sitting on the couch watching BARNEY! "Mom why are you watching Barney" I asked.

"Why are you home and not at school" she asked me back.

"One question at a time mom" I shot back and she smiled.

"I used to love this show. Up until you guys started not liking it then I drifted from it" She explained muting the T.V and patting the spot next to her. I went

and laid down next to her on the couch. When I was little we did this all the time. Noah would be outside playing with my dad and I would be laying in doors with my mom. She ran her fingers threw my hair and I closed my eyes. "Do you wanna explain why you left" she asked and I felt the wall I have around my heart crumble a little bit. "Just the past is catching up with me mom" I said softly.

"Okay." she said and continued running her hands threw my hair. I don't remember falling asleep but I must of because next time I opened up my eyes I was laying in the room. I got up quickly and shook the sleep out of my face. I changed into some jean shorts and a normal white tank top. I pulled my hair up into a high pony and walked downstairs. I saw Noah sitting on the couch with Heather and Dan. They were laughing and talking like the best of friends. It made me feel like I didn't belong so I walked right out of the room. I walked in to the backyard and was so happy when I saw a pool. I ran back upstairs and slipped on a white bikini I owned. It fit good and it made me look beautiful I thought. I took my hair out and grabbed a towel. I ran downstairs so fast and out

side. No one was outside and it was still hot outside. I dived into the pool loving the ice cold water on my skin. I swam so happy to feel free and feel the water around me. I don't know how long I swam but I finally got out when the sun was setting. When I got out I felt some ones hand go across my mouth and It muffled my scream. "Shhh" I heard his voice and anger boiled now. I picked my leg up and kicked him hard in the nuts. He let go of me and was now clutching his area in pain. "Luke stay away from me" I said threw clenched teeth.

"Eli let me explain" he said and I shook my head no.

"Please" he begged looking at me. Even though he said it in a nice voice his eyes were still so cold. "Luke you hurt me. You hurt me bad. I depended on you. I loved you even though I was young I loved you but what you did to me..." I trailed off.

"I didn't mean too" he said and I shook my head clearing the thoughts.

"You made me how I am today" I said and he shook his head no.

"You can say what you want but I didn't make you anything. You made yourself how you are" he said back.

"ELI" I heard my brother call.

"Luke" he said surprised to see him.

"Bye" he said to me and then disappeared.

"Eli you okay?" Noah asked me.

"Noah are you coming in" I heard Heather call.

"Noah get back to your friends. Don't worry about me" I said and with those words I did something I didn't think I would ever do. Closed it from my own twin. The only person who I have ever trusted. From my heart. I pushed past Noah and walked in drying my hair with the towel. I walked upstairs and heard some loud music blaring from Jaime room. I peeked in and saw a bunch of his friends over. "Hey Jaime" I said and he looked up. His eyes widened at the sight of me and so did his friends. "Hey Eli" he said and I smiled.

"I just wanted to say Hey. Now bye" I said and exited the room. I walked into Madison's room where she was sitting and talking with a friend. I ignored her cold glares and her friends excited looks. I changed into some short shorts and put one of Noah's long shirts on. I didn't pay attention though and walked back downstairs. Dan was gone and Noah and Heather were talking outside. Don't ask me why I did it but I was curious. So I sneaked over to the door and pressed my ear against the door.

"Heather would you like to go on a date with me this weekend" I heard Noah ask.

"Yes. I would like that" Heather said back with a girlish giggle.

"Yes. I get to go on a date with the prettiest girl in school" Noah said back and she laughed. "I doubt im the prettiest. I mean come on your sister is beautiful. Then there is Kendra, Jill, and Daniela. There really pretty" she said then I heard her heart beat speed up. "No one is as beautiful as you" I heard Noah whisper and I peeked threw the little window. Noah was leaning into her there lips centimeters apart.

"Can I kiss you" Noah asked and my eyes widened. He just met her.

"Yes" she said breathlessly then I saw Noah's lips touch hers. I darted away now. I was now alone. Noah had someone. My mom had her best friends. My dad had my mom.

Madison had her little friends.

Jaime had his.

While I had no one.

I couldn't let no one hurt me again.

The pain is too much but I felt a ping of it though. When I saw Noah's lips connect to hers. Because Noah found someone special. Someone to tell his deepest darkest fears too. He didn't need me anymore.

My mom said this was for the best.

This would make me better.

It didn't though.

It made it worse.

Much, Much worse.

I had one person before they made me leave.

I now had no one.

I grabbed a blanket and a pillow wanting to be alone tonight. I walked outside and found a beach chair. I put the pillow down and curled up outside.

I fell asleep quickly.

Happy to finally be at peace.

Aww...Some mother and daughter bonding.

Also Yay!! Noah found someone! :]

Chapter 5

Fame, Cute Boys, Annoying Brothers, Protective Dads, and Un-Fair Mothers. ~Chap. 5~

Chapter Five...

I woke up as the sun was rising. I laid there looking up at the sun. When it was up and the sun was showing us its pretty rays. I got up and walked inside. My mom was drinking a glass of blood and my dad was still sleeping I guessed. Eve was drinking some coffee sitting at the table. Jay was also drinking coffee and talking. My mom looked surprised when she saw me walk threw the door. "Where were you" she demanded at once.

"Sleeping" I said back and then she got worried.

"Outside?" she asked and I nodded.

"Why" she asked.

"I wanted to be alone. I also want to go home" I said back and my mother frowned.

"Eli no. Noah is doing fine and with some effort you can be doing fine too" my mother said and I shook my own head no.

"No mother" I said and left. I went and took a shower and put on some normal faded torn jeans. I slipped on a cute blood red tank top and a pair of matching flats. I then straightened my hair and put on some nice lip gloss. I then went downstairs and waited for everyone else to come downstairs. Madison came and left. Jaime came down and made himself a bowl of cereal. My jaw dropped when I saw Noah. I saw no trace of my bad boy brother Noah. I saw a preppy jock Noah in his place. He was wearing Khaki shorts and a nice plaid shirt. He had on regular tennis shoes. The Noah who always wore black and white was gone. In his place was a stranger.

"Ready to go sis" Noah said cheerful coming near me. He touched my shoulder and took all my will power not to cringe. "Yeah" I said and stepped away from

him. I wouldn't make eye contact with him either. -Are you okay- his voice was in my head.

-I'm fine- I said then my mother entered.

"You guys have adjusted so well that me and your father bought you a present" she said and handed us keys. "Thanks mom" I said a small smile on my lips and walked outside. I screamed in delight. My mother bought me a motorcycle. A beautiful wait for...wait for....PURPLE MOTORCYCLE!!! I loved the color purple and I ran towards it. I jumped on and saw my brother getting on his lime green one. "Jaime get on" I called and he ran and got on behind me. "Here's a helmet" I said and he put on and we were off. -Race Ya- I said into his mind. -Your on- he said and we were off. Jaime's hold on me was tight and I could tell he was scared. We darted threw cars and people honked. When we got to school though everyone stared. Jaime got off and shaking walked over to his friends after handing me my helmet. I got off and took off my own helmet. I shook my hair and put my helmet on my seat. Fixed my clothes and began to walk. I looked and saw Noah walking

towards a grinning Heather. When he reached her his arm went around her waist and pulled her protectively towards him. That little move made me ache for him by my side. Protecting me. Protecting his twin. Protecting his other half. I shook my head though I had to be happy. I walked my head down. "Hey" I heard a familiar voice say and I looked up and saw the beautiful green eyes of Derrick. "Jenni how are you" he asked.

"Good. Better" I said with a smile.

"Nice motorcycle" he said and I laughed.

"I love being fast" I said with a smirk.

"Oh. I have never ridden a motorcycle' he admitted.

"Never" I asked and he nodded.

"Wow" I said and he grinned. I felt someone presence behind me and spun around to see Luke. He grabbed my arm and started yanking me. I tried to pull away. I tried to yank my arm but I felt pain fill my body. "Let go of her" I heard Noah's stone cold voice say. I looked up at him and didn't want the pain on him. I didn't want him hurt not when he was finally happy.

"Noah just go with Heather. Stay out of my life" I said coldly. He looked so hurt as I looked away and let Luke drag me away. When we got to the side of the building he let go and i fell onto my hands and knees. "Why were you talking to him" he asked. "Because I can. You have no hold over me" I snarled and started trudging back. I felt the pain and collapsed onto the ground in pain. "I Tried asking nicely but you turned me down. I want you back. I want you back now. You are mine if you want to be are not" he said in his stone cold voice. I looked into his eyes and the memory filled my vision.

~~~ Ready For It...FLASH BACK TIME ~~~

I was only thirteen when I met Luke.

He went too my all vampire school. I was wearing a normal pair of jeans and a shirt that said 'Humans are friends not food' in red on the front. My mom bought it for me.

"Hello im Lucas" I boy said. He was so handsome. He had cute blonde hair that was messy. His eyes were green and so soft and sweet. "My name is Elizabeth. But call me Eli" I said grinning. Lucas and I became
~~~

fast friends. We did everything together. When we both turned fourteen we started dating. We were the cutest couple in school. I was totally madly in love with him too. Noah was a bad boy always in the Principle office so he didn't get to know Lucas very much. It was only a few months into are couple hood when things went down hill. His soft green eyes turned a bit colder. He was meaner and rougher with me. Even though he was like this I still loved him. We went to a party that was small and my brother was also there. At this party Luke taught me something.

"There's a human" he pointed too a scrawny looking scared a boy.

"What's he doing here" I asked.

"He's tonight meal" Luke said with a grin.

"No" I said and he stared at me.

"Just try it" he said and so I did. He tasted so good and I was now hooked. I started dressing different because Luke said I should. I Wore skimpy clothes that showed too much skin. I started acting out more. Going out more and drinking more. Until the night it

all went down and my heart was broken. Noah didn't go to this party because he was getting drunk with a group of people at a park. Luke was acting unusual and even more harsh then usual. I was talking to a human boy named Hank. He was one of the meals for the night. He looked so sweet and I just wanted someone to talk to. "Jenni what are you doing" Luke's cold voice said behind me.

"Talking" I said back.

"Why" he said and I felt him yank me. I ripped my arm out of his grasp.

"Don't yank me" I yelled at him.

"He did this" he said and pointed at Hank.

"No" I said and he yanked Hank by the neck and latched on to his neck. He started drinking and drinking too much. "LUKE STOP" I shrieked when I noticed Hanks heart stop beating. He dropped the boy and looked at me. His face so hard I didn't see any of the sweet boy. He grabbed my arm again and I was now frightened of him. He yanked me out the door and threw me away from him. "Ow" I said and

rubbed where my back hit a tree. "You killed him" he said and looked up horror stricken.

"N-No I d-didn't" I stuttered out.

"Yes you did" he said and slapped me hard.

"Luke im sorry" I whimpered out. Even though he should be saying sorry I didn't want him angry with me. I loved him still. I don't know why but the picture of the soft green eyes popped into my head. "don't talk to me. don't call me. don't look at me. I don't want anything to do with you" he snarled and I looked into his eyes. every time he said don't he stabbed me in the heart. "Please don't do this Luke baby" I said and felt another sting to my cheek. "Leave my sight you piece trash" he snarled and I got up and ran away. Tears blinding my vision. Why? Was all I thought as I ran. Then that's when the wall went up slowly. If someone you loved can turn on you so easily I didn't want anyone near mine. I didn't like this pain at all. I would rather have the bruises I know he made then this aching in my heart. When I got home my mom and dad were watching T.V. "What happened" my mother shrieked.

"Fell down the stairs" I mumbled and ran to my room. I sat on my bed and cried.

My wall was now up all the way. I promised my self that no one could come near my heart. I don't like this pain at all. Not at all.

~~~ Flash Back Time OVER ~~~

His eyes were just as cold and maybe even more. I couldn't believe he would do this to me. I didn't pull away though. I couldn't because I didn't want him to hurt anyone. I wanted him to leave because all the love I felt for him was gone. I felt now was pure hatred. People were still outdoors when we came back. Luke had a tight grip around my waist. It was so tight it hurt. -What happened- Noah's worried voice was in my head. I looked at Luke scared he heard. He didn't though but I didn't want him hurt though.

-Noah get out of my head! I hate you and I hate that stupid little bitch Heather. Leave me alone okay? Ever since we came here you haven't cared what happened to me!- I said back and looked at his sad
~~~

face. It broke my heart but I didn't want to see him hurt.

-Eli you cant seriously think that?- he thought to me worried and scared.

-I can and will. Now please DO NOT TALK TO ME- I yelled and my mind went silent. Nothing, I felt blank and lonely. Even though Luke's was next to me holding me painfully tight I felt alone still. I wish Luke was gone. I wish we would of stayed in London.

Everything was done with now.

I don't have anyone to live for?

I thought and I couldn't believe it but I wished I wasn't a vampire so I could take pills and be done. Be done with all this and be able to sleep peacefully forever.

I felt someone yank me and knew that wouldn't work.

Nothing would.

I really am nervous about this chapter so what you think would help my nerves. Lol.

Chapter 6

Fame, Cute Boys, Annoying Brothers, Protective Dads, and Un-Fair Mothers. ~Chap. 6~

Chapter Six...

I went threw the whole school day in some sort of daze. Luke was always by me too. I was never out of his sight it seemed. I talked to know one and at lunch I sat alone. Staring at the wall. Even when I knew he wasn't near me I felt like he was. I was scared for myself and my family now. At the end of the day Luke followed me home. When I got inside though I still felt like he was there. I went to bed that night still feeling like his cold eyes were on me. The whole week was like. The unnerving feeling that he was watching me never left. My mother watched me worried I could tell. I was sitting outside when the

thought came to me. How to finally get rid of myself. No more blood. Never. I would starve myself. That's when I started. I would start now. "Hey baby" I looked up to see my dad coming out the door. He sat down at the foot of my chair.

"How's school" he asked.

"Fine" I said quickly. I didn't like to talk to people.

"Making any friends" he asked again.

"No" I said again.

"Having Fun?"

"Sure"

"Brake any heart?"

"No"

"Can you say anything more then one word" he asked with a shaky laugh.

"No" I said and got up. I walked towards the pool and stripped of my clothes since I had a swim suit underneath it. I dived in. the water swallowing me whole. I swam and swam until my father gave up

and went inside. I then got out and dried myself off. I slipped on my clothes and went back on the chair. I curled up in a ball and looked up at the sky as darkness filled the sky. I watched and saw the first tiny little start pop into my vision. What do you when you see the first star again?

Oh yeah you make a wish...so that's what I did.

"Please Make it stop and make the troubles fly away and I can be a little girl again. Eating cookies and playing with dolls" I whispered.

I knew nothing like that would happen.

Never.

I was about to close my eyes when I felt like someone was watching me. I sat up quickly scared but no one was there. I hated this. I hated this so much. I hated living in fear.

What could I do though?

I wish I was a human girl.

I wish I could fall in love and marry Derrick.

Have a bunch of little mini me's running threw the house.

Grow old and die old.

I will never have those experience those.

I wasn't destined too.

Jenni P.O.V (Yay!!)

I looked threw the window at my little girl.

"Alex what are we going to do" I asked as I felt his arms go around my waist. His chin resting on my shoulder. "I don't know" he said and I relaxed into him.

"Maybe we should of stayed in London" I said.

"No. Noah has found a life here and Jenni will too. Just give her time" he said and I nodded. I turned around so I was face to face with him.

"Do you have to go back" I said my bottom lip jetting out.

"Yes. I have king duties" he said and I groaned. Then I noticed something and started laughing. He raised an eyebrow at me.

"Sorry but you s-said d-duties" I got out in my fit of laughter.

"And..." he said confused.

"Duties sounds a lot like doody...As un poop" I said and he started laughing along with me. He grabbed my chin and made me look at him. My laughs covered my tears. "I'm gunna really miss you" he said and leaned in close to me.

"Im gunna miss you more" I said and his lips connected to me. He pulled me up and I was now sitting on the counter. His lips still on mine. It would have been something else if are son didn't walk in. "AHHH IM BLIND" he screamed and fell to the ground. I Hopped off and glared at him. "Noah. Knock before you walk into a room" I said serious.

"Mom. There is no door. This is the kitchen" he said raising an eyebrow at me.

"It is" I asked confused. I swear we were in the bedroom.

'Yeah, Mom do you need some pills" he asked worried.

"No. Now leave me alone" I said and stomped away. Embarrassed about my stupidity.

I went and sat down in the living room and Noah sat down beside me.

"Mom im sorry" he said and I grinned at him.

"Its okay. I think there's something wrong with me though" I said and he bit his bottom lip. "Mom" he said holding back his laughter.

"What" I said confused at to why he would be laughing.

"There is something wrong with you. Being mentally retard isn't fixable" he said and burst out laughing. My mouth fell open and ran out of the room and upstairs. I couldn't believe him. I thought then burst out laughing myself.

I was rolling on the ground laughing because it was so funny.

I then heard the scream of my little girl. Blood curling scream and I was gone. I was outside in an instance. Noah was close behind me and what I saw made me want to cry. I saw my little curled in a ball screaming her head off. Screaming and crying at the same time. I rushed and pulled her on my lap. Pushing her hair out of her face and shushing her. "Shh. Its okay. What happened" I asked and she opened her mouth but didn't say anything. "You can tell me Eli" I said and she shook her head no. She pushed away from me and stood up. "I-Im fine" she said and started walking slowly towards the door that led inside. Eve and her family stood worried and shocked as my little girl shaking walked towards them. She almost got there but kind of fell over. She steadied herself and took a deep breath and continued inside. We all stood outside scared to move.

"Mom" I heard Noah say and I looked up.

"Yes" I said.

"I'm worried about her" he said and I rushed towards him. I pulled him into my embrace and hugged him tight. "Me too Baby. Me too" I said rubbing his head. As soon as all the kids were asleep and Alex called and told me he landed safely I sat down with Eve and Jay. "What do I do" I said my head buried in my hands.

"Nothing right now. She will be okay" Eve said rubbing my back.

"You guys what if something really bad is happening" I said.

"Nothing is. Eli is a smart girl and would tell you" Jay said and I smiled weakly at them.

"You guys are the best friends a girl would die for" I said getting up and hugging them.

"I'm going to bed. If ya wanna do the dirty don't let me hear you because I will get up and yell something. So then your children will no your still fucking" I said with a wicked grin and headed upstairs. I walked in and noticed my bed wasn't empty. The small form of my little girl was there. Her

eyes wide open and staring out the window. I got some pajama's and changed in the bathroom. I climbed in bed next to her and pulled her against me. I started stroking her hair again and she closed her eyes.

"Sleep baby. Everything is okay. Nothing can hurt you" I whispered in her ear. She nodded and fell asleep. I fell asleep soon after hoping and praying everything will be okay.

Luke P.O.V

I saw her mother climb into bed with her. Whisper soothing words in her ear and her fall asleep. I cursed and sped off into the night. I need to find away to be near her all the time. What happened by the pool was so thrilling. Hearing her scream sent a thrill threw my body. I didn't really care about her though. I need her so I could get to her. The one I need to kill. The one I need to kill for my master. I sped threw the night and too the small apartment where a bunch of people stayed. I knew how to get to her though. By hurting Elizabeth. Eli. Was so innocent when I met her. The girl I need to kill

thought by holding a stupid funeral will make everyone forgive and forget. I don't forget though. I remember when I figured out it was her mother that did it. I had to get away from her and train and then come back. Make her not want me out of her sight and want me always near her. That didn't work though. I got out of the car and into my apartment. I got in and went into my room. I locked the door and went to my draw. I pulled out the picture I kept on my bedside. I traced her blonde hair and gazed into her blue eyes.

She new me.

She new the real me.

She loved me.

I loved her.

But she killed her.

"Victoria my love I will avenge your death" I whispered and put the picture away.

Luke has history with Victoria...

Poor Elizabeth...

Chapter 7

Fame, Cute Boys, Annoying Brothers, Protective Dads, and Un-Fair Mothers. ~Chap. 7~

Chapter Seven...

Elizabeth P.O.V

I was still cuddled with my mom when I woke up in the morning. She was sleeping and she looked so beautiful. She looked happy and carefree too. I smiled then rolled out of bed. I got dizzy as soon as my feet hit the floor. I almost fell but I caught myself and took deep breaths. I walked out of the room and into the room I was sharing with Madison. I changed my clothes and went into the living room. Noah was sitting on the couch sucking faces with Heather. I

cleared my throat when I walked in and he shot up. He looked at me worried. "What" I asked softly.

"Are you drinking" he asked.

"Yes" I said and he shook his head and sat down.

I sat down on a chair near them. "Elizabeth" Heather soft perky voice said my name. my head snapped in her direction. "W-would you like to g-go to Dan's party with us tonight" she asked. "I don't know" I said and she smiled.

"I hope you come" she said and the room fell into silence. She looked at her watch and made a little gasping noise. "I got to go help Dan set up" she said and jumped up. Noah followed her to the door and stepped outside with her again. I crept over to the door and pressed my ear firmly against it. The little girl in me braking out.

"Noah what am I going to do" Heather said.

"About what" Noah asked.

"Your sister. I want her to like me since she is a big part in your life" she said and Noah snorted. "Yeah

right. I don't care what she thinks of you. She doesn't want me in her life" he said. "I do. And something is bothering her." she said and I heard kissing noises.

"Try to talk to her. don't just let her drift away you might regret it" she whispered to him and walked away. I stepped from the door and walked outside by the pool. He came like I knew he would. "Eli" his soft voice said. I looked up and saw him.

"Hello Luke" I greeted him.

"What do you want" he asked a bit agitated.

"I wanted to ask your permeation to go to a party" I said.

"I will pick you up at seven" he said then he was gone. I frowned wanting to go alone. I got up though and went to go lay down. I was exhausted. When I woke up it was time to get ready. I found a cute mini blood red strapless dress. I curled my hair and I looked good but my face looked more white then usual. Noah left and hour ago so he would already be there. There was a knock on the door and my mom answered it.

"Hello" she said.

"Is it Eli ready" Luke's nice voice said.

"Yes one minute" she said and then my name was yelled. I walked downstairs and too Luke. He wasn't alone though. He had about three other bad boys with him. They all held cold expressions and were wearing all black. Luke picked me up and in a minutes we were out front of Dan's house. The music was blaring. Luke burst through the doors. The music stopped. People stopped dancing and stared at him. He pulled me threw and the men behind followed. "Dance" he said in a cold voice and the party continued. I saw my brothers eyes look at us and he was worried. Heather look scared. I clung to Luke. Luke guided me into the kitchen where there was alcohol. They al started drinking. "Luke can I talk to Noah" I asked quietly.

"No" he said.

"Please" I asked again the wind blowing in my hair. We were outside drinking since there was only a few people outside. He slapped me so hard I flew to the ground with a thud. I haven't been drinking blood so

my body was weak. Very weak. "HEY" I heard Noah yell coming outside. No I thought. I tried getting up but was to weak too. I felt Noah walk towards me and the I heard a thud and people scream. I looked and saw Luke ramming Noah against a broken fence. "NO" I screamed getting up slowly. No one touches Noah. I thought as I pushed myself up. "LUCAS YOU WANT ME NOT HIM" I yelled. Luke dropped Noah and started walking towards me. "Don't touch her" Noah said getting up. I looked at Luke my whole limbs shaking of fear or weakness I don't know.

"Eli" Noah screamed worried. I looked at him sorry in my whole eyes and then it hit me. Right in the stomach Luke's hand hit me. I fell to the ground clutching my stomach. Screaming in agony. I was so weak that I felt all the pain. My head was getting light and I stood back up. I went to punch Luke but he caught it and threw me over his shoulder and I landed on the ground hard. "AHHH" I screamed as I felt like needled attacked my back.

He then yanked me up by the hair and my eyes connected with Noah's who was shaking with anger

now. "I can do what I want" Luke said and threw me. I didn't go far but hit the ground hard. "OWW" I screamed in agony. It hurt so bad and the dizziness was over powering. "I SAID DON'T TOUCH HER" Noah screamed and I blanked out. The hitting and the punching not getting to me or nothing.

-Eli- Noah's voice was in my head and someone strong hands held me.

-Noah- I thought back.

-Eli- he thought now happy.

-Noah im scared. I hurt and I don't want to die- I thought crying out in my mind.

-You wont die- he thought to me. Determined.

-Noah I cant stay awake- I thought back.

-Stay AWAKE- he thought but I didn't hear. My whole body was numb and my mind was blank. Nothing I felt mattered.

I just wanted to sleep.

Wanted the pain gone.

Everything and it was now that I was sleeping.

So I welcomed the sleep now.

Welcomed it with my whole heart.

Noah P.O.V

-Stay AWAKE- I thought to her but I got no response. I didn't feel anything in her brain. Her whole body went limp and I ran faster. I ran to the hospital. Scared and frightened. Heather was calling my mom for me she said. When I got to the hospital my mom was there and burst out in sobs when she saw Eli bloody in my arms. She grabbed her from me and raced to the people. I didn't follow just collapsed onto the ground. My shirt drenched in blood. Mine? Luke's? Eli? I don't know but all I know is that blood was on it. I walked over to the waiting room and collapsed on the ground. I felt arms wrap around me and the familiar smell of flowers fill me. "Noah she will be okay" Heathers voice said. "I hope your right" I said and she helped me up and onto a couch. I curled into it like a little kid and laid my head on Heathers lap. "Why don't you sleep? I'll wake you if anything important happens" she said and I nodded

my eyes already half way close. I drifted off to sleep and the memory came.

~~~ Time to take a trip down Memory Lane...FLASH BACK TIME~~~

I was only seven and Elizabeth and I were exploring the outdoors.

"Noah lets go into the forest" Elizabeth said with excitement in her eyes.

"Okay" I said always agreeing with her.

"Lets go" she said grabbing my hand as we ran. We ran threw the forest playing hide and seek. Until it got dark and I got scared since I didn't like the dark. "Eli I wanna go home" I said and Eli nodded in agreement. We started walking and I noticed we weren't getting anywhere. "Noah don't panic but I think were lost" Elizabeth said hands on her hips. My eyes widened and I did panic. "We cant be. Eli I want mommy" I cried out.

"Come on and don't whine like a baby" she said and marched ahead of me. I followed behind her but
~~~

soon I started bawling. "Noah stop" Elizabeth said running to my side.

"I'm scared Eli" I said and she hugged me.

"I'm right here Noah. No one will touch you as long as im here" she said and I smiled. She led me threw the forest a tight grip on my hands. She was so brave I thought.

"Hug a tree" She mumbled to herself.

"Elizabeth..." I said and she looked at me.

"Are we almost home" I asked and she smiled.

"Yeah" she said and I actually believed her. We were still looking when my mom found us. She cried and hugged us. "You guys are so far from home" she scolded leading us home. Elizabeth lied to me so I wouldn't get scared. Even though my mom was here and I could hold her hand I still held Elizabeth. She made me feel safe because she was brave.

~~~ Small I know...FLASH BACK TIME OVER ~~~

I was shaken awake and sat up to see my mom.
~~~

"Lucky for us there was a doctor vampire on duty. He said that since she hasn't had any blood for over a month it weakened her. The fight made her loose even more blood. He has her hooked on some machines and she has a 60 percent of living" she said and I nodded. "You can go see her" she answered my unspoken question.

"Room 211" she said and I nodded and left. I ran too her room just wanting to get by her. When I got to her room and walked in. she was hooked up to so many machines she looked so sad. I walked and sat in a chair beside and grabbed her hand like in the forest.

"Eli you need to wake up. You're the brave one. Im not" I said and started crying.

"I cant be brave Eli. I have never been brave like you" I cried my head lying on her stomach. "I need you. You're my other half. You're the one who lies and says everything is going to be okay when we all know it wont. I cant do that only you can" I sobbed out my body racking with sobs now. Gut wrenching sobs came out of my body.

I fell asleep like that. Holding her hand hoping she would wake up.

??? P.O.V

I got off the plane and walked towards the black car. I slid into the passenger seat not speaking to the person driving. I got called on a mission and I was going to get it now. I got out of the car when it stopped. I walked out and into the tall building. It looked to be about 30 feet high. It was midnight a time where people lay safe in there beds.

I get in the elevator and press 10. I look and see a guy wearing the similar black pants and black tank and jacket as me. He doesn't have glasses on though like I do. He is holding a brief case. We don't talk. In this business you learn not to talk to people. My mother said this mission I should be able to do. I was going to get the assignment now. The elevator dinged and the guy with the brief case wondered out. I stayed on and the elevator proceeded up. When it dinged the second time I stepped off. I walked up to his secretary.

"Is Mr. Moore in" I asked and she nodded. I walked into his office and he had a serious face on. "I need someone to keep an eye out on my daughter if she wakes up. She got badly injured by a Lucas Kale. He got away and we have word that he will return" he said and I nodded. "I can do that" I said and bowed.

"Her name is Elizabeth Moore" he said and I nodded.

"So do I have your word and your life that you will protect her life if it kills you to do it" he asked getting up and walked towards me. He had determination in his face.

"Yes sir" I said and he nodded.

"I shall inform you if and when she awakens" he said and I nodded again and walked out.

I would protect her since its my mission.

It will not be like my last.

My last one I was just a little kid.

I didn't know what was going on now.

I looked at my cell and saw one missed call from heather. I just pressed ignore and got back in the car.

Chapter Eight...

Jenni P.O.V

The days went by slow and no new changes from Elizabeth.

On the 15th day of her sleeping she woke up. "Mommy" she said breathlessly and I rushed to her. "Yes baby" I said moving her bangs from her face.

"What happened" she asked and I smiled and leaned down and pecked her forehead.

"You don't remember" I asked and she shook her head.

"No. I don't remember anything. All I can remember is walking into music class and then blank. Im trying to think but it hurts" she said wincing and I stroked her face. "Don't try" I whispered. "I'm thirsty" she said and I nodded.

"Ill go get you some" I said and she nodded and I exited the room. Noah was asleep in the waiting room. "Noah wake up. She just woke up" I said and he jumped up and was off but I blocked his path. "She doesn't remember meeting Luke. Do not bring him up" I warned and he nodded then left. I went to find the doctor. "She woke up but doesn't remember anything from when she first went into music class" I said and he nodded.

"That is acceptable. Her brain is pushing out the traumatic thing that happened and blocking it from coming back. Nothing to worry about" he assured me and I nodded.

"I will send a nurse in with some blood for her to drink" he said and I nodded again and we parted ways. I went into the room where Noah was hugging Elizabeth crying and she was soothing him. I

whipped out my cellphone to call and let Alex know she woke up.

"Alex she woke up" I said happily and he let out a sigh of relief.

"That's great. I have hired an agent to watch her and make sure no one harms her" he said and my jaw dropped. "NO" I yelled and people stared at me.

"Why not" he asked.

"Because that is her privacy. She doesn't need someone following her and getting in her business. Noah and I can watch out for her and that is enough" I said my words ending the discussion. "Okay" he said defeated and I smiled in triumph.

"I got to go. Ill have her call you when she is able to sit up on her own" I assured him.

"Okay. I love you and miss you" he said and I smiled.

"I love you and miss you too" I said back and we hung up. I looked in at the scene in front of me. My little girl laughing with her brother.

Smiles and sucking on her little juice box that was filled with red juicy blood.

"Hey mom" Noah said all grins when he spotted me in the doorway.

"Hi" Elizabeth said looking beautiful. The blood gave her face a radiant glow.

I walked in smiling. "Hey guys" I said happy to be with my family.

Happy for my daughter safety.

Elizabeth P.O.V

It was the day I finally got to go back to school. I had jitters in my belly and I was so excited. We moved into are own small house so I got my own bedroom now. I rolled out of bed and stretched. I put on some tight black tights. I put on a long white shirt that reached down to the middle of my thighs. One sleeve of the shirt fell off my shoulder. It had a picture of the king of pop on it and I loved it. I then slipped on some flats, lightly curled my hair and went downstairs. My mom sold my motorcycle and bought me a 2010 white Lamborghini. "Ready to go sis" Noah

hollered from the doorway. "Yeah" I said and ran towards the door. He got in the passenger seat of my car as I slid into the drivers seat. We drove in silence and when we got to school we got out. Noah pulled me towards him and held onto my hand. He led me towards a group of strangers. The girl hugged me and I gave a questioning look at Noah. He was just grinning proudly.

"Hello Elizabeth are you feeling better" the girl asked and I nodded.

"Call me Eli" I said and her grin widened.

"Elizabeth" someone hollered and a cute boy walked over.

"Who are you" I asked and Noah was behind me.

"It's Derrick" he said and I gave a confusing look.

"She forgot everything the only things she remembers are the stuff that happened before music class" Noah explained.

"Oh" Derrick said frowning and I felt sad.

"Its nice to meet you though. Are we friends" I asked and he nodded now grinning.

"Yeah. At least I hope we were" he said and I laughed.

"Well we are" I said shaking his hand.

"Sweet" he said and I laughed.

"I was wondering if maybe I could take you out on a date" he asked and I grinned.

"Hmm...Well your cute and I just met you for the second time. Let me ask my mom and if she says okay then it will be a definite yes" I said and he smiled showing cute little dimples he has. Just then the bell rang that showed people they needed to be headed to there first period class. The day went by fast Noah escorted me to all my classes too. It was nice and when we got to lunch I got a surprise. Heather was dating my Noah. My sweet little mama's boy Noah! "NO WAY" I screeched when they told me.

"Eli calm down" Noah said embarrassed at my outburst.

"Don't tell me to calm down" I said with a smile and eh laughed.

When lunch was over I walked into music class. She was so excited to see me that she actually jumped up and down the teacher. "My voice is back" she said as she hugged me. When the bell rang everyone sat down and she was bouncing in her seat.

"You guys the principle proved of my idea that you all would be able to hold a concert at the end of the year" she said grinning and are eyes widened.

"Guess who the main singers will be" she said and everyone looked at me and Derrick,

"Correct. Now I want you all to sings some verses with your partners I will assign. Your partner will tell you want you need to improve" she said grinning.

"Derrick and Elizabeth. You guys will need to get used to working with each other so you two are partners. Now go somewhere and sing" she said and we nodded got up and walked towards the door and went outside.

"What do you want me to sing" I asked and he laughed.

"How about Already Gone by Kelly Clarkson" he suggested and I grinned.

"I have one part in that song that wont leave" I said grinning and he laughed.

"Okay here I go" I said and cleared my voice and started to sing.

"Started with a perfect kiss then we could feel the poison set in

Perfect couldn't keep this love alive

You know that I love you so, I love you enough to let you go" I sang swaying.

"I want you to know that it doesn't matter

Where we take this road someone's gotta go

And I want you to know you couldn't have loved me better

But I want you to move on so I'm already gone" I finished with a smile.

"What do you want me to sing" he asked and I grinned.

"How about you sing Because of you by Ne-Yo" I said and he gave me a disappointed look. "Don't know that song very well" he admitted. He went into thinking.

"I only know this little part" he said and I grinned.

"Think of it every second,

I can't get nothing done.

Only concern is the next time, I'm 'gon get me some.

Know I should stay away from,

Cause it's no good for me.

I try and try but my obsession, won't let me leave." he sang beautifully. We didn't this back and forth the whole class. When the day was over I went home and went to bed, happy but exhausted.

??? P.O.V

I was at head quarters practicing my martial arts when my cell went off. It was Mr. Moore so I

answered. " She is awake" he said and I hid my surprise. I already knew that.

'My wife informed me that I wasn't supposed to have someone watch her" he said and I nodded. I already kept an eye on her since I saw her at school everyday.

"So agent can you be a secret agent" he asked.

"Yes sir" I said.

"Then the deal is on. I know that you already are stationed in her area so you wont need money for that. I want you to befriend her and that is all. Am I understood" he asked.

My mission was to do what the client said no matter what.

"Yes sir" I said back.

"Good" he said then hung up. I put my phone away and went back to practicing. I had a duty now and I always kept my mind on the job. So I practiced harder now wanting all my reflex's perfect and accuracy perfect also.

Everything needed to be perfect.

Yay! Elizabeth is alive and well.

Chapter 9

Fame, Cute Boys, Annoying Brothers, Protective Dads, and Un-Fair Mothers. ~Chap. 9~

Chapter Nine...

"Mom why not" it was Friday after school and I was trying to get my mom to let me go out. Ever since the hospital episode she wont let me out of her sight unless I go to school. Then Noah Is watching me. I feel like a two year old.

"Okay...But Noah and Heather have to go" she said smiling.

"MOM" I screamed in frustration.

"That is not fair" I said at her confused face.

"Why isn't it fair" she asked hands on her hips.

"I want to go on my date alone and not with Noah. I love him and all but twins cant do everything together" I explained and my mom shook her head no.

"Noah and Heather go or you don't go" she said and I screamed in frustration.

"Eli doesn't the man pay for the dates" Noah asked walking into the kitchen with Heather. "Yeah but how does that enter this conversation" I asked confused.

"Well then Heather Eli will be paying for us tonight" Noah said and Heather and him laughed. My mother and I just stared confused not understanding the joke.

"I don't get it" my mom said and that made them laugh harder.

"He just called Eli a man" Heather explained.

"NOAH" I roared and the chase was on. We started running all over the house. Up and down the stairs jumping out the window. Finally I caught up to him and pounced on his back outside. I pretended to stab him as we rolled down the hill in are backyard.

When we reached the bottom I jumped on him and pinned him down.

"Say im not a man and sorry" I said back and he shook his head no.

"Never" he said.

"Whatever you say" I said sweetly and started tickling him in his tickling spot. He burst out laughing. "IM SORRY" he screamed in defeat.

"And..." I prompted.

"YOUR NOT A MAN" he screamed still laughing. I got off of him and smiled.

"We ran back inside and went into the living room where mom and Heather were sitting.

"They can come" I said defeated.

"Okay" my mother said.

"Im going to go call Derrick" I said and darted upstairs to text Derrick.

- All Texts From Now On-

Eli- Derrick do you still wanna go out tonight?

Derrick(: - Yeah. Do you wanna?

Eli- If I didn't I wouldn't of texted you. Lol.

Derrick(: - True. I'll pick you up at 7?

Eli- Yeah. One problem though. Since the whole hospital incident my mom wont let me leave the house unless her or Noah or with me. So is it okay if Noah and Heather Come?

Derrick(: - Sure. I don't care. I only care about seeing you. :]

Eli- Aww. I wanna see you too.

Derrick(: - Okay. Why don't I drive over and well take your car or something?

Eli- It's a date.

Eli- If you want it to be I mean. :l

Derrick(: - Its totally a date! :D

Eli- Lol. Okay, See ya soon.

Derrick(: - Yeah. Bye.

Eli- Byee! :]

- Texting is over and regular words are back on sista's-

I am such I nerd. I thought hitting myself on the forehead as I searched for something to wear. "Hmm..." I said looking. I finally found something cute that would do. It was white skinny jeans and some cute pair of dark brown ugg boots. I then put on a cute brown tank top and an adorable baby blue shirt that was tight and reached below my butt. It was also a v neck so my brown tank top showed. I straightened my bangs and curled my hair. I posed a few times and when I was satisfied I went downstairs. To my surprise Derrick was here. "I'm sorry I was slow" I said hugging him lightly so my mom didn't say anything. Since I never usual brought boys home and stuff. My mom came in the room looking beautiful as always. " Hello Im Jennifer but call me Jenni" she said shaking his hand. "Eli didn't tell me she had an older sister" he said and Noah and I started laughing. Are mother laughed lightly. "Im there mom. Im not used to being a parent so don't you ever call me Mrs. Moore. You will always call me Jenni" she said and then his eyes widened. "You're

the reason we cant call Mr. Harris Mr. H. Every time anyone says it he freaks out and has a nervous break down" he said and my mother laughed.

"I really need to go pay him a visit" she said smiling.

"If you do you will give him a heart attack" Derrick said and she just smiled.

"He wouldn't call me Jenni" she said and he laughed.

"Mom you know what we better get going BYE" I said and yanked Derrick out of the house.

"Lets get this date on the road" I said as everyone piled in my car and then we were off.

Chapter 10

Fame, Cute Boys, Annoying Brothers, Protective Dads, and Un-Fair Mothers. ~Chap. 10~

Chapter Ten...

"I know this neat new club we can go to for teens" Noah said from the back.

"Okay" I agreed and Derrick shook his head in agreement. We heard a small growl from the back and then all are head swiveled towards Heathers belly. She gave a nervous laugh.

"My stomach is hungry" she said and we all laughed.

"Well go to some human restaurant" I said

"Burger King? They just got some vampire drinks in" Derrick suggested so we all nodded. "Noah

remember how mom used to take us there just so we could play in the play area and she could watch T.V" I said laughing.

"Haha! Yeah" Noah said roaring with laughter at the memory. When we got there we piled in and ordered some food. Then we went and sat down. I stared open mouthed at what Heather got. "I didn't know Burger King had salads" I said astounded.

"I know. Its like having Vitamins at a crack house" Noah said and we laughed.

We all started laughing and got looks but didn't care. There was an older couple staring at us so a purposely picked up my clear glass. You could tell it had Blood in it and I held it up to my mouth. I drank it slowly my eyes locking with hers. Her face had pure disgust on it. I lowered my glass and licked my lips and she pursed her own lips and turned towards her husband. They clearly started talking about me. I turned and looked at Derrick who looked amused. "What" I asked a smile pulling on my lips.

"You are so immature" he said and I giggled. He leaned towards me and I leaned towards him. The

moment would have been perfect but NO! Noah had to ruin it.

"Hey you guys look what I did with my straws" He said and we looked at him with mirrored irritation on are faces. He had the straws stuck on his fangs and looked like a walrus. It would have been funny in a whole different light. "Oh" he said seeing are looks. "Were you guys having a moment" Noah said pulling the straws out.

"No. We were just leaning in for no other reason" I said glaring.

"Well act like were not here" Noah said looking at Heather and then locking lips with her. The moment was ruined and now I was feeling nauseated by the sight of Noah making out with Heather. "Eww. Lets go" I said crawling out of the booth. Derrick chuckled following me out of the booth. Noah and Heather separated and followed us. We walked to the car and then drove to the club. There was a line but not that long so we went and waited. When we got in though it was awesome. We started dancing right away. Bodies shaking and grinding. It was awesome and so

much fun. I was breathless when I finally left the dance floor. I walked over to the bar and slid into a seat. "Hi" I said greeting the bar tender. He nodded his head in the cool way that signaled hey.

While I was sitting and attractive guy came over and asked me to dance. I jumped up and decided to start round two. We went onto the dance floor and his hands found my waist automatically. When I was done dancing with him I floated outside the club for some fresh air. I leaned against the wall and took deep breaths. My silence was interrupted by little people. "Don't you see her outfit" One of them said and the other one nodded.

"She could be a model I mean like seriously" the one that nodded said.

"I wish I was like her" The first one said.

"I wish I was her" the second one said.

"Oh-My-GOD" the first one said my eyes were open staring at them.

"She knows were talking about her" the second one said. I did a little wave and they scurried away as fast

as they could. I smiled and was so happy when Derrick came out looking for me. "There's a slow dance on and I think you owe me a dance" he said a smile on his beautiful face and a hand outstretched. I slowly reached for it and let him pull me inside. I felt my wall around my heart crumble as he pulled me onto the dance floor and his hands went around my waist pulling me close to him. My arms went around his neck and we locked eyes and danced. "You have beautiful eyes" he said and I would have blushed if I was human. "Thanks" I said back.

"Im happy we got to go out tonight. I mean I feel so lucky" he said and I giggled.

"Why" I asked because I had to ruin the moment. I couldn't believe myself. I didn't want to get hurt again. I didn't want that aching pain again. I couldn't take another broken heart. Ever since Luke. I missed him. The way he smiled the last time I saw him though he was so angry. What I would give to just see his beautiful smile again. "Because your beautiful, Intelligent and everything I have always wanted in a girl" he said braking me out of my painful memories.

"The last guy I gave my heart to said that. He said he loved me. He said he would never hurt me. He did though. He broke my heart and..." I broke off my throat feeling tight and tears threatening to fall. I buried my face into his chest and he held onto me tightly. "Elizabeth" he said and I looked up.

"I wont ever hurt you. I wont ever lie to you" he said and he looked so trust worthy.

"Are you sure" I asked and he nodded. His head sank down towards my awaiting lips then they connected. It was sweet and I felt so complete. Like his lips were meant for mine. I never wanted to stop but a loud bang and a thud made us pull apart. I gasped in front of me was Luke the boy who broke my heart.

"Long time no see Elizabeth" he said my name coldly.

I looked around and Derrick was no longer there. Noah was beside me looking frantic.

"Where's Heather" he asked me.

"Where Derrick" I asked him. He was scared for her as I was scared for Derrick.

"Luke leave. She doesn't remember" he said and Luke laughed a cold laugh. I was scared and confused. Then everything happened at once Luke's hand was around my throat and his menacing voice echoed through out the club. "Then will have to make her remember" his voice said. Then his grip was gone and the fighting began. I looked up and a person dressed in black was battling Luke. I couldn't tell if it was a girl or a boy as Noah pulled me up and we raced around looking for heather and Derrick.

"HEATHER" Noah called.

I should of hollered for Derrick but I was too surprised too.

Three things were on my mind...

One Luke was back...I don't know if that was good news or bad.

Two Derrick kissed me. Derrick liked me and I think I don't know I might love him. I couldn't know yet for sure.

And Three I wondered who the masked black fighter was...who was it and what side was it on good...or....bad?

Chapter 11

Fame, Cute Boys, Annoying Brothers, Protective Dads, and Un-Fair Mothers. ~Chap. 11~

Warning: It's up early for reason...You will see at the end.

Chapter Eleven...

We waited outside and then after awhile Heather and Derrick both came out breathless. Noah pulled Heather towards him and hugged her tightly. I ran into Derricks arm holding him to me. He kissed the top of my head and I breathed in his beautiful scent. "Why don't we get going home" Noah said braking me out of my thoughts and pulled me back to reality. We piled in the car and drove Derrick home then

Heather. I did a little wave to Derrick while Noah and Heather had a full out make out session in my back seat. Finally after Heather left we went home. We got inside and I headed upstairs. I needed to take a shower. When I was done I put on some Pajama's and walked downstairs. My brother was sitting on the couch looking nervous. My mom was sitting beside him bouncing in her seat. Lying was never something she was good at. "What's wrong" I asked.

"Nothing" my mom said in a high pitched voice. I knew something was wrong and I had a feeling it had to do with Luke. "Mom tell me" I said getting nervous but angry at the same time. "Elizabeth calm down. Nothing's wrong" My mother repeated in the same high pitched voice. "NO" I screamed and looked at Noah for answers but he didn't meet my eyes. "What happened? Does it have to do with what happened with Luke?" I asked and Noah snuck a look at her and she shook her head no. "Mom please. STOP" I yelled.

"Honey you stop" she said and stood up.

"Mom I need to know stop treating me like a little kid. Im not a little kid anymore" I said and she crumbled. She sat down and patted the spot in between her and Noah.

"Lets talk" she said and I sat down. Readying myself with what she would reveal.

She told me everything that was once blank in my mind. Why I was really in the hospital. Everything. I gasped and ended up bawling. My mom pulled me into her lap and cuddled me like I was a little kid. I let her hold me too. I fell asleep in her lap accepting the darkness and sleeping peacefully. I woke up and smelt a strange smell. I walked downstairs and my mouth fell open.

"Mom what are you doing" I asked as my mom flipped a pancake.

"Im making you guys some breakfast" she said a huge smile on her face. I hated to ruin her happy mood but it had to be done. "Umm. Mom we don't eat human food. Remember" I said and her mouth dropped open.

"Im so stupid. You guys don't eat human food because you're a vampire and im a vampire and Ughh" she said and I hugged her shoulders.

"Its okay mom" I said as she shook her head.

"What am I going to do with all this food though" She said and I shrugged.

"I don't know. Why don't you throw it out" I said and she gasped.

"NEVER" she said and blocked the food. I raised an eye brown.

"I was up all morning over a BURNING stove making this. You think im going to juts throw it out" she said and I laughed. My mom wasn't over a stove I know her. She put most of it in microwave. "Mom" I said and she looked at me.

"Ill go get the garbage bag" she mumbled and stomped out of the room. I laughed and went upstairs to get ready. I put on some jeans and a regular t-shirts. When I came downstairs my mom had a huge grin on her face. "Were going to go

swimming with Eve and Jay and guess who is coming down to visit" she said and I squealed.

"Aunt Macy and Uncle Damien" I asked and she nodded and I screamed.

"Shut up. I want to sleep" Noah screamed from upstairs and I frowned.

"Lets give him a wake up call" my mom said evilly. I laughed and she ran away. She came back with squirt guns full of ice cold water. She gave me one and we darted upstairs. When we walked into his room we gave one nod then ripped of his cover and squirt. "GOOD MORNING" we screamed as he screamed bloody murder. When the water was gone my mother and I were rolling on the ground laughing are asses off. "You guys are stupid and immature" Noah said walking to his bathroom and slamming the door. "Were going to the pool so get ready" My mother hollered still giggling.

"Im going to go get ready" I said breathing heavy because of all the laughing. I put on a white bikini with red trimming. I put on a strap less red sun dress and put on some flip flops and went downstairs. My

mom looked more like my sister then my mom in her swim suit. She had on a white bikini and looked beautiful. My brother was wearing white swim trunks land red trimming. We were always wearing the same when we didn't mean too. We all left and pilled in are car to go pick up the family. When we got in the air port I ran into my Aunt Macy's arms. She hugged me and almost fell over by the weight of me. It was funny when I got off her my mom hugged her tightly. Carly and Carla were looking at me. I actually missed them. I ran and scooped them up in a hug and they laughed and hugged me. We left and went to the pool since they were already dressed in there swim suits. When we got to the pool we walked in and found a seat. We got ready and started swimming like any normal family. My vision got captured as the hottest boy ever walked into the pool. Hid abs glistened with sweat since he was shirtless. He had on read swim trunks. He looked up and are eyes locked. "DERRICK" I screamed and lunged after him. He scooped me in his arms and I laughed. I didn't care that my whole family was watching. When he leaned down and gave me a quick light kiss

I pulled him back down. I pressed my lips fiercely to his. He pressed me against the closest wall as his lips massaged my own lips. He licked my lower lip for entrance and I gladly gave it to him. My body craved him in a different way then I have ever craved any other human. I didn't want him in a hunger way but it didn't feel like desire. It felt like more and I couldn't put a name to it. "PDA" Noah screamed and we disengaged are selves and I bit my lower lip and walked over to my family. After they meant him we swam then went home.

When we got home we piled inside.

"Can I ask you guys a question" my mom asked.

"Yeah" we all said.

"What does PDA mean" she asked and we laughed. I was cuddled on the couch by Derrick. The phone rang and my mom went and answered it. "Hello" she said then everything went so slowly. My mother screamed and the phone dropped to the ground with the loudest thud I have ever heard. We all rushed to her as she backed towards the wall. She started

bawling. Sobs racking her body over and over again. "What happened" Aunt Macy asked.

"He's d-dead" she sobbed out.

"Who" Aunt Macy asked rubbing her back.

"A-Alex" she cried out and my whole world stopped stopped.

Chapter 12

Fame, Cute Boys, Annoying Brothers, Protective Dads, and Un-Fair Mothers. ~Chap. 12~

Chapter Twelve...

Noah P.O.V

My sister collapsed into Derricks arms as I stood shell shock. My mothers form clung to Aunt Macy sobbing her poor heart out. I had to deal with. I had to handle this situation like a man and not do what I want too. I want to go curl in my mothers arms and have her hold me but I cant. "Derrick, Aunt Macy take the girls out. I need to call and figure out what's going on" I said and they nodded and left. Uncle Damien led the twins out and I dialed the number back. "Is my father dead" I asked before the lady even said hello.

"He is close to death but not dead. He is in a induced coma" she explained and I almost screamed with delight. "I need the private plan flown here immediately" I ordered.

"Yes sir" she said and I hung up and called the person who I loved more then anything.

"Hello" her beautiful voice said.

"Heather you wanna go back to London with me? My dad got badly injured and I n-need you" I stuttered out trying to keep my mainly brave look.

"Ill be there in two minutes" she said and hung up. I walked into the living area where Elizabeth lay curled in Derricks arms crying.

"Dad is in an induced coma. He is still alive but barely so we are leaving to go back to London immediately" I said and Elizabeth was up and hugging me. Hard and I held on to her and she cried on my shoulder. I felt awkward since me and her haven't had a brother and sister moment for awhile. "I love you Noah for being so strong" she whispered

and pulled away. I grinned at her and Heather rushed in. Her eyes wide.

"Im ready" she said and then we all separated.

Aunt Macy, Uncle Damien, Carla and Carly went upstairs to help mom pack. Derrick went upstairs with Eli to help her pack and I fell on the couch and Heather plopped beside me. She gave me a look and held her arms open. I instantly went into her embrace and she held me tight. "Everything is going to be okay Noah" she said and I let a few tears escaped because this is the reason I loved her.

This is reason I need her with me.

Because She was the only one who holds me.

The only person I don't always have to be brave for...

She is my girlfriend.

My love.

My Heather.

Elizabeth P.O.V

I was so happy that Noah was my brother. He always knew what to do.

"Derrick can you come with me" I asked and he grinned.

"Where else would I wanna be" he said laying on my bed. I laughed and fell on top of him. "I'm happy your dad is okay" he said and I smiled at him. I laid there hugging him until; I heard Noah yell time to go. I grabbed my suit case and ran downstairs and outside where Noah was. His eye were a bit red and it looked like he had been crying. I didn't say anything though. My mom came down walking like a zombie. I handed Derrick my bag and ran to my mother side. "Mommy its going to be okay" I said hugging her. She rested her head on my shoulder. "Baby I don't know" she said and I sighed.

"Mommy you need to be strong, You need to be. I need you to tell me everything is okay. I need you to be strong. Sometimes I cant do it. Noah is having a hard time we all are. Mommy we need you" I whispered and let go before my tears betrayed me. Noah was going to be strong I had to be. I couldn't

brake down now. I took a deep breath as Derrick slipped his had around my waist and pulled me close to him. We all piled in the car and drove off. We got to the airport and boarded the plane. My mom was still in her zombie like mode and it broke my heart. I hated seeing her like this. Noah saw my pained gaze at our mother. "Eli. We need to talk" he said and I nodded. My gaze not leaving my mother torn body. Noah led me down towards the back of the plane. "Elizabeth are you okay" he asked and I looked at him. " Noah are you okay" I shot back and he looked startled. I put my hand on his cheek and looked into the eyes that we shared. "Noah stop worrying about me. Im a big girl, I have derrick. Ill be fine. At the house I was caught off guard but not anymore. Noah you don't have to do this alone. Were twins. Twins do everything together. Twins are never meant to be alone" I said and turned and walked away and let my words sink in. I walked and sat back down and fell asleep my head laying on Derricks shoulder. When I woke up the plane was on the ground and everyone was getting off. The servants would get are belonging so we left them and went into the limo and straight

to the hospital where my fathers body lay un moving. When we got there we went straight to his room. They did, I didn't. I couldn't bare to see him laying there. I wasn't strong enough to go look. I was weak mentally for the impact of his body laying there.

"Im going to go look" Derrick said and I nodded. He went in with my parents and sat in the chairs out of the room. A few minutes after Derrick left a strange guy dressed in all black came and sat beside me. He gave me an uneasy feeling. Finally Noah came out and looked at the man oddly. "Who are you" Noah's cold voice said. I stood up and went beside. "Im part of a secret agency that was on duty to protect your father. I need my agent back because we must start planning. There has been attack upon your kingdom" He explained and are jaws dropped. Just then Heather and Derrick came walking out. Both there eyes widened at the sight of the man dressed in all black.

"Agent we must start planning immediately. Your mission to protect and be friendly with Princess Elizabeth is on suspension until further notice" he

said and the person who stepped up made me and Noah's jaw drop.

Chapter 13

Fame, Cute Boys, Annoying Brothers, Protective Dads, and Un-Fair Mothers. ~Chap. 13~

Chapter Thirteen....

They both stepped up!

Heather and Derrick.

Why was my gorgeous sensitive Derrick stepping up?

I mean come on Heather always seemed a bit fake.

I felt sorry for Noah who was as shell shock as me.

"Agent Heather your still on duty to protect the whole family. As you can see there is still three people who need to be protected" he said and she nodded and backed up head down, not looking at Noah. That meant that Derrick...

My heart shattered. Into a million pieces and my wall once again went up. This time so thick and sturdy it would never fail. I didn't feel the pain yet, I felt nothing. My body was numb, and my feeling were numb. "Agent Derrick we leave immediately" the guy in black said and Derrick left with out a backward glance. This numb feeling was worse then anything I have ever felt. Noah at least new she cared. She didn't have to like him she could of became best friends with me. She didn't need him to be close to him.

She wanted to be though.

"Noah. Im sorry I lied to you" Heather said sniffling.

"I don't care. I love you anyway" he said believing because of the things I just thought.

That she chose him but Derrick...

Everyone was feeling something...

My brother happiness and love..

My mom fear and sorrow.

My aunts and uncles sadness and fear also..

The little ones sad and bewilderment.

While I...

I felt nothing. At all.

I backed up and started running.

I ran out of the building outside and too a park. No one was there it was foggy so no one was here at the park. That's when the pain finally hit me. The realization that he never loved me. It was all just so he could protect me because he had to. That was the key word. He had too. He had too watch. He had to be with me. He had to comfort me.

Not one thing he did was because he wanted too. Why did he kiss me then? He probably kissed me so I would think he cared for me. What did he say to me before the attack? Oh he said he wouldn't hurt me. Right now I was hurting bad. He said he would never lie. All he did though was lie. It hurt so bad. When Luke left it didn't feel like this. Part of me knew Luke was going to do something major. I didn't know Derrick would though. The sobs burst out from with in my body. Everything exploded in pain. Every

muscle it seemed was affected. My heart radiated pain so great I wanted to scream. I just sobbed and sobbed. Tears kept rolling out from my eyes as I clutched my chest as I bawled. Finally I stopped. The tears disappeared.

Everything was gone.

My wall was complete.

All my feeling for him were behind this wall that was strong. I got up and walked back. Up to the hospital where my fathers room was. No one noticed I left. No one ran to comfort me even though my eyes were a puffy red. Noah was blind to how I was feeling by the pure love and happiness he was feeling. My mother didn't notice because she was too busy crying over my dad. My aunts and uncles to busy because they worried about my mother. One person noticed thought. Aunt Dawn and Uncle Dills little girl Michelle. Her mom and dad must of brought I noticed as her little four year old body came out of the waiting room. When she saw me she grinned and ran towards me. She jumped on my lap and looked at

me angry. "Why are you mad" I asked and she frowned.

"You missed my party" she said in her cute baby mad voice.

"Im sorry. Ill be there when you turn five" I said and we did the whole pinky promise deal. Then she noticed my eyes and frowned. "Are you hurt too" she asked her eyes widening and fear. "Yeah but somewhere deep inside me" I said.

"Is it bout Uncle Awex" she asked and I shook my head no.

"Its about somebody I meant and he hurt me" I said and she hugged me.

"Where does it hurt. Cause im a doctor" she said climbing off my lap and her hands going to her hips. "It hurts in my heart" I said smiling a small smile.

"Oh. I cant help you den. I haven't learn that yet" she said seriously.

"You can help me though" I said and she cocked her head to the side.

"I just need some hugs and kisses time" I said and she got back on my lap and gave me a cute little kid peck and snuggled into my chest. "I Wuv you Eli" she said and I smiled. This helped a lot.

More then anyone would ever know. After awhile Aunt Dawn and Uncle Dill came out and told Michelle it was time go they had to go pick Mike up. She waved goodbye as she left and I stared after her. I got up and walked silently outside again. Walked back to the park but this time I didn't cry but I wasn't radiating happiness either. I just walked wanting to forget him completely and worry about my dad. every time I tried to though he entered my mind. I sighed dramatically and fell to the ground.

I was laying in the grass a small amount of sun peeking threw those stupid clouds.

My eyes closed and just trying to forget.

When my sun was blocked.

I sat up, defensive.

I looked and saw him blocking my light.

The last person I wanted to talk too.

The one person who caused all this pain.

This pain that was trying to break my wall.

I jumped up ready to let it all out on him

Who do you think it is? :O

Fame, Cute Boys, Annoying Brothers, Protective Dads, and Un-Fair Mothers. ~Chap. 14~

Chapter Fourteen...

"Luke get away from me" I snarled and he grinned.

"Elizabeth. Im giving you a choice...Come to my side. You can rule with me. I actually like you now, I need a queen too and you my darling are a perfect queen" he said and I was taken a back by his question. "I cant" I said.

"Eli, you can. I must attack still but you can be on the winning side. I didn't mean to hurt you" he said referring to the past. "He hurt you, he lied to you, I never lied to you" he said and he looked so sincere. "Lucas" I said biting my lower lip. Remembering the

times he would love me. Remembered the good times when we were little. My Lucas. My baby. The one I loved. He walked to my and laid his hand over my heart. I was shocked because this was a small but intimate move. It was a caring move. I stepped back and put my eyes down. "Lucas" I said again but my voice was filled with pain. My old feeling come back in a rush. One certain memory flooding my mind.

~~~ Flash Back Time ~~~

"Eli" Lucas called at the age of fourteen. It was after school and he was going to walk home with me. "Eli I need to talk to you. Will you come to my secret spot with me" he asked and I nodded. He held out his hand and I grinned taking a hold of it. We walked in silence enjoying each others company. We walked and he stopped. "Close your eyes" he said. I giggled but closed them and he led me. He sat me down on a bench. "Open" he whispered in my ear and I did. I gasped and grinned. "Its beautiful Luke" I said and he smiled. "I come here to think" he said and I smiled. He took my to a beautiful open area. It had a small pond and a few benches. It was a beautiful sight. "Ill
~~~

be right back" he said and I nodded. Still staring at the sight in front of me. He left and in moments came back. He had a rose in his hands and kneeled down in front of me. I was still sitting on the bench and my eyes widened. "Eli. I have known you for over a year and you have my heart in a tight grip. I love you and want to be with you. Will you be my girlfriend" he asked and I smiled breathless. It was so sweet. "Yes. Luke I would be honored" I said and hugged him. We pulled apart are faces close. I had never kissed a boy before and I was so nervous. He leaned in and are lips touched lightly. It was a soft kiss and short but the sweetest thing. We pulled apart and I took the rose. "Its beautiful" I said and he nodded. "Not as beautiful as you though" he said and I smiled. I loved him so much and he was so sweet who wouldn't love him?

~~~ Flash back over ~~~

That's when I decided.

I knew it would hurt my family but they wouldn't notice. I deserved to be happy. Even though it betrayed my family. I needed to be happy.

"Luke. I love you still. Surprising I know so yes I will go with you" I said taking his outstretched hand and going with him. To I don't know where....

Chapter 15

Fame, Cute Boys, Annoying Brothers, Protective Dads, and Un-Fair Mothers. ~Chap. 15~

Chapter Fifteen...

Luke took me to a small but large castle. It was big but at the same time looked like the one we owned. Why did I choose him? I have no idea.

"Eli, Welcome home" he said leading me into the building.

"Elizabeth. We have meeting right now. We will attack soon and we need to be ready" he said and took me by the arm and led me into a big room with a long table. He sat down at the leaders spot and I stood next to him. Feeling uncomfortable the way these people stared at me. They looked at me, no

amusement, no tenderness in there eyes. They were cold lifeless people I thought. None of them talked. They were white. Whiter then me. There eyes scared me. They were red. A dark but bright red. They frightened me.

"Before the meeting ends. I have some good news" he said and they didn't move.

"Are queen can be brought back too...with the blood of the queen" he said and I froze.

I understood what he did now, I backed up and rushed out of the room. Feeling I had to throw up. I rushed to the toilet and puked. When I was done I washed my mouth and stepped out of the bathroom. I decided to wonder. So I walked threw the house opening doors and shutting them. I opened one door and gasped. It was a room brightly lit. There was about 20 bed, 10 on each side lined up against the wall. There were small beds. On each bed laid a very pregnant woman, someone giving birth, or tired lifeless lady on each. I gasped at the sight and walked in. I walked toward a bed and on a bed was a very

pregnant girl. She was young and about my age. When she saw me her eyes widened.

"Princess" she whispered and my eyes widened. I went to her side.

"What is happening here" I asked and she looked at me. Her body weak I could tell.

"He is looking for a certain baby with the power. When he finds the baby he can raise it to be evil. The mothers die in process" she said a humorless laugh coming out of her. I look startled as she caressed her belly. Then to my surprise it glowed. She didn't look surprised but alarmed and hid her belly quickly. "You have the one don't you" I asked and she looked up at me. Pain in her eyes.

"Yes" she whispered.

"What would happen if he got it" I asked curious.

"His king. That evil man. Had a potion. He was trying to make a powerful vampire. One with the a power that no one has ever seen, he died before he could accomplish it. Lucas found the potion and his directions and stuff. He started collecting people off

the streets and getting them pregnant. He injects each one with this potion. If the potion works the mother will grow weaker and weaker as the baby gets powerful. If it doesn't the baby will die and the mother will die too" she said and my eyes were wide I horror.

"I wont be alive much longer. He can not have this baby. Princess he cant" she said her eyes filling with tears. The door burst open and a furious Luke stood in the doorway. I got up and made eye contact with him. "You are not allowed in here" he snarled and I didn't blink. "Lucas. I want friends. She is my friend. So I would suggest you leave, I will be with you in a moment" I said back and he glared then left. I bent down and hugged her.

"I promise" I whispered as I got up and exited the room.

Luke was in the room I suspected.

I felt so stupid.

Im so dumb.

I picked the wrong side...

Derrick.

Ow.

Thinking his name makes arrows pierce my heart.

It's up to me.

I thought as I walked and my plan was made.

I had to do what I had to do.

Even if it hurt me and others I cared about.

Even if I lost someone.

Even if I got killed in the process.

Jenni P.O.V

I clung on to Alex.

Not moving.

When he opened up his eyes. I jumped up and lunged my self on him and my lips crashed to his. He knew what was going on and he disparately ached for me as I ached for him. Being away hurt, then I thought he was dead. His heart monitor thing started beeping

but I didn't notice till a bunch of nurses ran in. Noah and Heather behind them

"MOM" Noah yelled and I sat up and wiped my lips and climbed off of him,

"Mhmm...Well...he's awake" I said then exited quickly biting my lower lip. My son followed me out. "Mom do you know where Eli is?" he asked and I shook my head no.

"Ill call her" I said whipping out my cell and called her. I was so happy, Alex was awake.

"Hello" Eli said her voice seemed cold and distant.

"Where are you? Your father is awake" I asked walking towards the room again.

"Shit" a male voice said in the background.

"Who was that" I asked and she exhaled deeply.

"Luke" she said and I gasped and stopped.

"WHAT" I screamed.

"Im with Luke. Im staying with Luke. Unlike you guys he loves me, He cares about me. Unlike you and

everyone. You know Derrick used me. Dad hired him to protect me" she said a cold laugh.

'"Elizabeth what are you saying" I asked nervously.

"Mom, Im on Luke's side" she said and I almost dropped my phone.

"ELIZABETH MARIE MOORE" I yelled as the line went dead. I threw my phone so hard at the wall It broke in half.

I backed up and into the wall. Shocked.

My little girl went to the wrong side.

What hurts the most is that she said I didn't love her.

I do because she is my little girl.

I will probably never get to hear one word I really like and that is that very special word...Mom.

Goal is 15 votes. COMMENT AND VOTE!!!!

Really tired, My eyes are barely open.

P.S anyone who cares....NEW MOON ROCKS!! I LOVE THAT MOVIE!!!Hate the ending but other then that I LOVED IT!! :D

Chapter 16

Fame, Cute Boys, Annoying Brothers, Protective Dads, and Un-Fair Mothers. ~Chap. 16~

Chapter Sixteen...

Eli P.O.V

I walked threw the halls of Luke's Mansion remembering Derrick.

The way he smiled.

The way he touched me.

The way he walked.

Even though he put me threw all this pain.

I couldn't hate him.

I just wanted to remember him, be happy.

I don't want to be sad.

I want to love him, so much.

That's what hurts the most, that he doesn't return it.

"So what if it hurts me, So what if I brake down. So what if this world just throws me off the edge, feet run out of ground. I got to find my place, I wanna hear my sound. Don't care about all the pain in front of me. I just wanna be happy" I sang to myself remembering the song from Leona Lewis called happy. I sat down on the ground as I pictured his face. I remember the feel of his embrace around me. I felt that pain again. I didn't like it. Would I go back though? Would I return and make myself not like him?

No.

He hurt me, really bad.

I loved him though. I loved him so much. I just wanted him to at least be my friend. I just wanted a tiny part of him. "WHY" I screamed all of sudden, pounding the walls.

"WHY DERRICK" I screamed again. Tears threatened to fall. I collapsed on to the ground. I bit my lower lip not letting my tears escape. "I just want to be happy" I said to myself. Hating everything, everything I caused. I caused all this. I got up. Shook my head and walked down the hall. Back into the center of the chaos of people getting ready for a fight. I walked and ran into Lucas. He smiled and grabbed me by the waist.

"My queen" he said a hand going under my chin pulling my lips towards his. The kiss was quick and to me at least meaningless and no spark and definitely no love. He led me into the room we called are own and over to a crib. I was confused. Why did he have a crib? I looked down and saw a tiny little boy. A blue outfit on him. His hair so dark and bunch of it. His eyes were red. I was taken back and gasped. "He is beautiful and ours. You may name him" he said grinning at me.

"Xavier" I said because it fit him.

"Xavier it is" he grinned and hugged me.

"I must go, you can bond with it" he said and I noted he didn't say him.

He left and I slowly picked up the tiny thing. I traced his tiny face, his little fingers. I felt sadness knowing his mother died. She was beautiful and young. Remembering my promise I smiled. I slowly kissed his forehead and laid him back down. I raced to the phone, decided to call my mother. Tell her the truth because after that phone call I had with her I cried. I felt terrible hearing her panic and knowing she cried afterwards. She answered on the first ring.

"Elizabeth" she said.

"Mom im so sorry, he was in the room" I explained and she cried out in relief.

"Mom, I can not talk long. Im not on there side, I changed my mind. I would leave but I promised a friend something and I have to fulfill. don't worry about me, I will be home before the battle" I said and hung up. I knew she was okay now, which made me glad.

I walked and picked up Xavier. I sat down and on the bed and held him.

A new plan, one that would proceed soon forming in my mind as a smile spread across my face.

Jenni P.O.V

It has been a few days now and now that I know my baby is okay I feel fine. Happy and my usual bubbly self. Alex was home and planning, Noah helping and so was Heather. Also that bastard that hurt my daughter. I was watching T.V when a commercial with babies came on. An idea popped in my head and I raced upstairs. I burst threw Alex's office door. "Jenni what do you want" Alex asked as I grinned.

"Alex. I want a Chinese baby" I said.

"No" he said and turned back to his work. My mouth fell open.

"PLEASE" I whined.

"Jenni, there is a war going to happen" he said and I gave him a shrug.

"And im getting older. You know people cant have babies forever. You know woman dry out alex DRY OUT" I cried and he sighed.

"Jenni, You're a vampire. You will never get older" he said and I frowned.

"Yeah, mentally" I said pointing to my brain.

"Jenni..." he said in that tone.

"Alex..." said back in the same tone.

"Jenni, No final answer" he said.

"ALEX! I am a girl, girls have needs. Im like a mother bird my babies have flown out of my nest, I need more babies in my nest" I said, he had his head in his papers again.

"Make them go back" he said and I frowned.

"They don't want to. There grown" I said.

"Noah, go back in your moms nest" Alex said.

"HELL NO" he screamed.

"SEE" I screamed at him.

"Jennifer, You don't need a baby" he said.

"Alexander, I am a woman. I need something to take care of. Something to nurture" I explained. "Then get a damn goldfish" he said and I sighed.

"They always die on me" I said and he looked up.

"What they do!? I feed them, bathe them..." I said until Noah interrupted me.

"Bathe them?" he asked and I nodded,

"Yeah. They get dirty. So I put soap in there" I said and he frowned.

"Fish don't need baths" he said.

"Oh, that's why they die" I said.

"I thought they were allergic to peanut butter" I said.

"Mom, Why would they be allergic to peanut butter" he asked.

"Everyone is Allergic to peanut butter" I said and he shook his head in laughter.

"So...Alex when will I get my baby" I asked.

"Never" he said and my mouth dropped.

"Yes, I will get one" I said then walked out and slammed the door after me.

Derrick P.O.V (FINALLY!!!)

"Derrick get your mind into this planning. We have to plan to get this set" my boss said and I nodded. I couldn't concentrate though.

"Im going for a walk" I mumbled and left before he could protest.

I couldn't concentrate because all I could think about was her face.

Her delicate, lovely face.

And how I fell hair for the kings daughter.

Ha. Catchy movie title.

Everyone keeps saying 'Good Job Derrick' or ' Ha. You are an awesome Agent' that's what they say.

Im not though.

I love her.

I love her so much.

But...

I hurt her.

I lied to her.

She would never forgive me.

She had to though.

"Derrick" I said talking to myself.

"You will win her back, when this is all over. You will take her out, tell her everything you say to yourself, trying to convince yourself" I said and smiled.

Giving my self hope, that she may take me back.

I walked back to the base ready to start planning with new enthusiasm.

And hope...

That maybe...

She will forgive.

My beautiful, precious, wonderful Elizabeth.

The Kings daughter and my true love.

Chapter 17

Fame, Cute Boys, Annoying Brothers, Protective Dads, and Un-Fair Mothers. ~Chap. 17~

Chapter Seventeen...

Eli P.O.V

"Elizabeth. I have to go out. Will you be fine staying with the baby" he asked me and I smiled. "Sure, Sure. I can" I said and he smiled. He gave me a quick peck on the lips and darted away. My plan was in motion. I got up and packed Xavier's clothes and diapers for the long time it will take until we are home free. I then ran into his office. I dashed to his desk and into his drawers. I found his plan, documents and everything important. I grabbed them and shoved them into the babies diapers bag. I looked into the

room and looked down at the clothes I was wearing. This wouldn't do. I ran and leafed threw the clothes trying to find something flexible to wear. I found a light black dress. I put booty shorts underneath and slipped some flats on. I put a hair band on my wrist and rushed back to Xavier. Who's round red eyes were opening. I shuttered at the sight of them again. I picked him up though and waddled him into a blanket. I tucked him in my arms and slipped the diaper bag over my arm. With one last glance, a tiny pang in my chest, I jumped. My feet slammed to the ground, silent and delicately. I looked up one last time the wind blowing my hair around and ran away. Towards the forest. The forest I would make my escape to.

Noah P.O.V

I missed my sister, more and more.

I was falling in love with heather more and more too though.

My life was so confusing lately I didn't know what to do.

My mom for some odd reason wanted a Chinese baby.

My dad was worried about my sister, wanting her home.

That idiot Derrick walked around like a love sick puppy.

Then that scary sergeant guy walked around like he owned the place.

"Mom what are you doing" I asked her when she walked in carrying a baby doll.

"I have to practice my baby skills. So meet your new sister Zoey" she said showing me the most ugliest fake baby I have ever seen. "Mom that is one ugly ass baby" I said and she gasped, covering the babies ears. "Noah how dare you! She can hear you, you know. That was so mean. say sorry" she yelled at me and holding the baby out to my face.

"Im not saying sorry to a baby that's not...." I didn't get to finish there was a huge bang upstairs. We all froze, the fight wasn't supposed to start for another week. The guards darted upstairs. I ran upstairs too

where there was now fighting and hitting going on. Derrick followed me up the stairs. When I got upstairs, I was surprised at what I saw and what those stupid people were doing. "AHHH" she screamed and fell with a thud to the ground. "YOU STUPID IDIOTS! THAT'S MY SISTER YOU JUST HURT" I screamed and darted to her side. Hoping and praying they didn't kill her.

Yeah, I know it's short.

I'm hitting a rough spot and like I said im not getting very much feedback so I dont know what you all are thinking about whats going on.

So PLEASE comment and vote.

Chapter 18

Fame, Cute Boys, Annoying Brothers, Protective Dads, and Un-Fair Mothers. ~Chap. 18~

Eli P.O.V

I woke up groggy.

Where was I?

Where was Xavier?

Xavier.

"Where is my baby" I said shooting up. My mom raced towards me holding a fake baby?

I shook my head and saw Noah running to me and Heather holding a little bundle. I darted and ran towards her, ripping the bundle out of her arms. "W-what" she stuttered as I looked him up and down. His

eyes opened and the usual red orbs stared at me, which oddly calmed me down. I took a deep breath. "I am sorry. I just get worried about him. He isn't your usual baby. Im not in the mood explain but he is very rare and special. He needs to stay away from Luke" I explained.

"My baby" My mother said running and hugging me.

"Isn't it awesome. We both have babies now. Oh my god they can be best friends" she gushed and I looked down to see the ugliest fakest baby ever. "Mom that's a fake baby" I commented and her mouth fell open. "I cant believe you and your brother. You are so mean to your new baby sister it just brakes my heart" she cried and I raised an eyebrow.

"Mom. Im sorry" I said and she hugged me.

"Its okay. Im just happy your home and safe" she said and kissed my cheeks. Xavier wiggled in my arms and I laid him down and yawned. "Sorry, im just really tired" I commented and they all smiled. "Well leave and let you have some sleep" Noah said and they all left. I sat down on the bed and gazed at Xavier. What am I going to do. I sitting, and figuring

out what I was going to do and didn't notice the door opened and someone walked in. "Elizabeth" the voice said softly and I spun around.

Eyes wide.

'Derrick" I whispered barely able to speak.

"Elizabeth im sorry" he said stepping towards me and I stepped back.

"Derrick, Y-you lied to m-me" I stuttered out as he stepped closer and I stepped back.

"I didn't want too. When your father hired me, he gave me two rules and I broke one of them" he said and I looked confused.

"No you didn't. you didn't tell me" I said.

"That's one of the rules. The other one was not to date you, not to kiss you, and defiantly not to fall in love with you" he said and I gasped.

"I broke all of those and i defiantly broke the last one" he said with a sheepish grin.

"So you really do love me" I asked looking up and at him.

"Elizabeth, I will always hane and always will love you" he said and stepped closer and this time I didn't step back. He loved me. He was obeying rules. All he said and did was true. Before I knew what I was doing I jumped on him. My legs wrapping around his waist and kissing his lips strongly. We disengaged for just a moment. I grabbed Xavier and rushed to Heather. "Would you mind watching him for a second" I asked and she nodded, confused and took him. I then ran back and went on kissing. Blindly we made it to the bed. Falling down and kissing each other strongly. I loved him. I really did. Before I knew what was going on, before I could stop it, even though I didn't want to stop, we were undressing each other. Doing what I haven't done before, but I loved him and wanted to, so we did.

OoOo! Lalala.

Elizabeth is doing the Nasty with Derrick.

Chapter 19

Fame, Cute Boys, Annoying Brothers, Protective Dads, and Un-Fair Mothers. ~Chap. 19~

Chapter Nineteen....

I looked up at Derrick, my love for him so evident on my face anyone could see it.

"I love you" I whispered and he smiled and leaned down and kissed me.

"I love you too" he mumbled into my lips as the kiss grew deeper. He rolled me underneath him. We were about to start round two when the door burst open.

"Elizabeth me and your sister...AHH" My mother screamed and I heard a soft thud.

"MOM" I screamed sitting up so fast I pushed Derrick off of my. The comforter and him fell off the bed as I covered myself with a sheet. "Mom ever heard of knocking" I asked glaring at her as she covered eyes and ran into stuff blindly. "Im sorry, I was going to ask my once sweet innocent daughter to play with her sister and I but I see she is busy" she screamed. I jumped up and hurriedly dressed while Derrick did the same. "Mom you can look now" I said as she ran into another wall. She opened her eyes and sighed dramatically and hurried and picked up Zoey. "Did you guys use rubber" my mom asked.

"MOM" I screeched, getting more embarrassed by the moment.

"Its okay. We did" Derrick said as I glared at my mother.

"Okay" she said and waltz out of the room with her ugly ass baby.

I sighed and laid my head on Derrick's shoulder.

"My mother is a lunatic" I said and he chuckled which made his whole body vibrate.

"Lets go check on Xavier" he said and led me out of the room and to where Heather was. I took Xavier from her and thanked her for watching him last night. She just laughed and smiled. I walked downstairs, happy and cheerful. When I heard a blood curling scream and darted downstairs. I saw a group of people walking. Knives, guns, and bats in there hands. I knew it was time. It was time for me to defend what I love. A maid was standing in the backyard scared to death. Her mouth wide open. I yanked her frozen still body inside and threw her away from the door. I rushed up to my fathers office.

"Father" I said breathless as he looked up irritated. Mom has probably been bothering him. "Its time. There here" I said breathless and he looked alarm.

"Not for more two days" he said and I pointed to the window. He saw it and his face held no emotion and I knew he was preparing for the fight. He pushed a button and said over an intercom that filled the whole house. His voice holding so much authority I thought It never was possible. "They are here. It is time to fight" he spoke and stood up. He saw me

clutching Xavier to my body closely. Scared for this little boy I have grown so attached too. "Elizabeth. We need to destroy the baby" he said it painfully and I gasped.

"No" I said backing up.

"Im so sorry" he said gravely and pulled out a knife he had hid in his buckle loop.

"Daddy please no" I said tears bordering my eyes. He yanked the baby from my arms and turned so all I saw was his back. "Daddy please. He's just a baby. I can train, he can be the son I will never have the chance of having" I cried, sobs coming from within as his hand went up and came down. I deafening cry erupting from within my baby.

"NO" I screamed as I collapsed on to the ground.

Short again...I know.

I'm sorry. :[

Chapter 20

Fame, Cute Boys, Annoying Brothers, Protective Dads, and Un-Fair Mothers. ~Chap. 21, and Epilogue :[

Reminder thoughts have this - behind and in front of them.

Chapter Twenty One...

As Heather broke into sobs and rushed and clung onto Noah's body for dear life. I knew I couldn't live without him. He is like I said my other half. My mom was standing frozen, my dad beside her. I closed my eyes and searched. For my brothers mind. Searched for that connection that used to be so strong. -Noah- I thought powerfully walking towards where Heather laid next to him. I sunk to my knees beside him. Grasped his hand into mine. -Noah. I need you- I

thought helplessly. Then as if I had no control of my mind, soul, are heart I was gone. Into the same black world. I haven't been since I was little girl. When Victoria kidnapped my brother and mother. -Noah- I thought looking for him. Like when I was two and when I thought I lost him. -Elizabeth- I heard his thought so clearly, I was building with joy. -Noah, You cant leave- I ordered in the most meanest voice I could muster. -Elizabeth, its my time- he thought upset.

-No im older. I say it isn't your time- I scolded though the wetness on my cheeks gave away how I really felt. -By two minutes- he said and I smiled.

-Noah, Please- I cried.

-Elizabeth, I want too. I don't know how- he finally admitted and I ran to him. Hugging him so tight to me I was so happy. -Noah, I wonder if I can give you some of my energy- I thought. -Im fine, but if it comes to who lives between me and you. Elizabeth you need to promise me you will choose you- he thought.

-Okay- I said and then the I started fading. Quickly away, dissolving into mid air. Then I was back. My

mom crying, my dad silent tears, and Heathers sobs. All the heartbreak let me know that I was back in the real world. "Heather move" I said and pushed her confused body away from Noah. I held both his hands in mine and imagined are hearts connecting. My energy, and power flowing into him. It felt as if I was draining as I grew weaker. Knowing what I was trying to work was succeeding. "NOAH" Heather cried as I grew tired and weak. A smile on my face as I passed out tired.

I was happy.

My brother was a live.

My love was a live.

My baby was a live.

Everything I loved was a live and Healthy.

I felt myself being picked and carried into the house.

I started to sit up but felt someone shush me and make me lay back down in there arms. I looked up and saw Derrick's smiling face down at me.

"Rest Beautiful. Lets worry about all this tomorrow" he said kissing my forehead as I snuggled into his arms. "Derrick, I love you" I whispered but I know he heard.

"I love you too Elizabeth" he said and I knew then. That my life might of not fairy tale worthy, I might not be the picture perfect girl, but I do have people who love me. At the end of the day, that's all that matters.

Epilogue! :[

I ran downstairs, not knowing why everyone was making such a big deal about this.

"Your late" my mother scolded and I rolled my eyes. I was eighteen, but she still treated me like a one year old. "Yeah, Im always late" I said and she laughed.

"Why are we here" I asked and my uncle laughed.

"Your grandma has wanted this for along time" he explained and I just groaned and flopped down on the couch. My mom chatted with my Uncle and his very pregnant wife.

I sat thinking about my past life and my future. My mom has always been protective of me. Supposedly I was 'powerful' but I felt like a normal teenage boy. I don't care though. Just then the door opened and my grandma walked in with a pink bundle and grandpa right behind her. "Oh, Mom you have got to let me see her" my mother squealed running up to my grandma as she handed her the pink bundle. "What's her name" I asked from my spot on the couch. "Zoey" she said and my Uncle's mouth dropped.

"Let me see her right now" he said peeking at the bundle and let out a long sigh of relief.

"What did you need to see so bad" my grandma asked.

"The last baby you had was ugly" he said and she gasped and my mom just laughed. Rocking the baby in her arms. Why I suddenly got jealous is beyond me.

"Where did you get it at" I asked getting up and walking towards my mom.

"I got HER from china" My grandma said glaring at me and giving an annoyed look at me. I just shrugged and walked over to peer at the little bundle in my moms arms. She was a pretty cute baby. To think this sweet little human bundle would be my aunt, was beyond a little confusing but oh well. My mom handed the baby back and put an arm around my waist and looked up at me.

"I miss when you were my little baby" she said and I laughed. I laid my head on her shoulder. "Any thing new" she asked and I shook my head no.

"Schools boring. Everything is the same" I said and she nodded.

"You know how special you are to me, don't you?" she asked and I looked down and nodded. My dad coming and standing next to her.

"Love you mom" I called as her and my dad started walking upstairs for some privacy.

She looked at me and I knew she saw him in me. The evil man she killed, the man who sometimes haunts my dreams. She always sees the beautiful lady that

gave birth to me, but never got to meet me. "I love you too Xavier" she said smiling and heading upstairs. I sat down smiling. My family was happy, the past they don't like to talk about though. Secrets left behind in the dust.

Im powerful, Very powerful.

Im also an ordinary teenage boy.

One with a mom a dad.

A uncle and aunt.

Great aunts and great uncles.

A king for a grandpa.

And a weird Chinese baby wanting grandma.

My family, would I trade them?

Never.

:'(

I'm sad, im finally done with my Jenni series.

Hmm...What do you guys think?

Jenni got her Chinese baby!

Noah didnt die!

Chapter 21

Fame, Cute Boys, Annoying Brothers, Protective Dads, and Un-Fair Mothers. ~Chap. 20~

"What the..." my dad whispered and I looked up.

Tears stained face peering in front of him. I saw the most weirdest thing ever.

"Dad what happened" I asked as I saw the blue light bubble surrounding my babies form as he looked up. His red eyes scared and wide searching for comfort.

Searching for me.

I went to touch him and my hand went threw the light bubble as if it was air.

My dad tried and he screeched, dropping the baby.

I caught him before he fell. The bubble complete gone as he looked up at me. Pure happiness in his eyes. I smiled and leaned down and kissed his forehead.

"He is more powerful then we thought" my dad said and I nodded.

"Bring him to the basement. Then come out" he ordered and I nodded and ran downstairs. I slipped Xavier in a mental box that should keep him safe. The top was open and now that he would know danger he would be able to sense danger. I kissed him and charged up to my mothers room where she stood waiting with Heather, Aunt Dawn, and Aunt Macy beside her. "You will wear this outfit with pride" my mom said handing me a barely noticeable black tight suit. "What is this" I asked and she smiled.

"This is the very outfit I wore when Vicky attacked are own family" she said and I smiled I changed and it felt like I was wearing nothing. I looked up at my mom who had tears in her eyes. Dawn, Macy, and Heather were gone and it was just me and my

mother. She pulled me into a hug and hugged me tightly to her.

"Elizabeth. You are my brave little girl, You don't have to do this? You can go hide with Xavier make a clean escape. Have a life" she said looking at me.

"I have too mom. This is my life. I love you and dad and Noah" I said as a tear escaped my eyes. She wiped it away and smiled at me. "Elizabeth, when I brought you too my home town I hoped it would make a better change. You would be able to live happily while you were there. All seemed to bring to you was pain and misery. You meant an old fling who broke your heart and then he abused you. You were on deaths door step and lost memories. You then let someone into your heart, and he broke your heart. Its all my fault" she cried and I held her too me.

"Mommy, no you brought me happiness. You bringing me back showed me what was important in my life. I might have been heart broken but I found my love again. I have a beautiful boy I will raise as my son. Mom bringing me to your home town was

the best thing you could have ever done for me" I said and hugged her as she hugged me.

"I love you baby" my mom whispered into my ear as we hugged.

"I love you too mommy" I whispered and we pulled apart. Hooked arms and left the room. We walked downstairs ready to defend are throne. When we got outside my mom gave me a kiss on the cheek and walked over to my dad. I walked towards Noah and Derrick. "Ready" I asked with a devilish grin as Derrick took in my body hungrily. I smirked and then looked ahead of us as my father walked forward. Meeting Lucas in the middle. "Elizabeth" he said not even acknowledging my father.

"Lucas" I said back and he looked pained.

"Please don't make me destroy" he asked. I walked forward but Derrick pulled me back. I looked at him, pleading with him to let me try. He just nodded and let me go. I walked forward eyes all on me.

"Lucas. I don't love evil. I don't love people who hurt other woman. I don't love you" I said and he snarled.

"Give me the baby" he growled and I shook my head sadly no.

"I cant give you Xavier" I said and he was now really angry.

"Elizabeth" he snarled.

"No" I said and stepped back. Lucas back handed one of are men near him and the fight started. People came after me. I dodged and kicked them. Killing, after Killing people. Some one cut my upper arm with a knife and I hissed in pain. I then lifted the person up and threw him. Knocking to people over before he hit a pole, it going right threw him. I ran and ran. I was picked up and thrown on the ground. I looked up and saw Lucas. His eyes black in anger. I went at him sliding my foot across the ground tripping him. Before I knew what I was doing I was on top of him. I knife held above his, un-beating heart.

"Elizabeth" he said eyes pleading with me. I could see threw the fake sadness threw his eyes as he stared at me. "You are lying bastard. You killed me long time ago when you left me. I just was brought to life by my

true love Derrick" I said and his sadness left and was replaced with pure hatred. "You are cold hearted bitch" he snarled.

"So was your Vicky. Now join her in hell you bastard" I roared and the knife went in. so hard and deep his pain filled scream blast threw the area so loud. It shook the hold clearing. "Asshole" I muttered standing up. My knife soaked with blood that I threw away. We killed off everyone else and the fight ended. I thought it was over and I couldn't wait to celebrate with my brother.

"Noah we won" I cheered and noticed he was no where near here. I saw him leaning against a tree. His face was whiter then normal. It was also clenched in pain. I rushed to his side. "Noah" I cried running to him.

"Noah are you okay" I asked looking at him.

"Eli, You were always a good person" he said threw clenched teeth as the pain he was feeling became unbearable. The wave links that have been closed for so long opened up. My brothers once closed mind was open for me again. All the way, and before I

knew it I was sharing his pain. It hurt so bad. "Elizabeth tell heather I love her" he said as the pain became to lessen and his signal to me started to weaken.

"Noah what are you doing" I asked as all wave links left. It was as if, he wasn't there. Like he never existed in this wonderful world we call earth.

"Noah please don't" I sobbed as his body fell from where he was on the tree and to the ground.

"Eli, what's wrong" Heather's worried voice asked from behind as I sobbed.

"He's gone. My other half. The one who holds all my secrets and shares the same memories" I whispered and she understood what I was saying.

He was gone.

No one could bring him back.

No more secrets, no more laughs.

My other half was gone.

My loveable brother who had felt as if all the responsibility was his shoulders was gone.

Noah was dead.

Imma horrible person i know...

What do you guys want?
